Notes to the Abbreviated Accounts
for the Year Ended 31st March 2014

1. ACCOUNTING POLICIES

Basis of preparing the financial statements

The company has returned to profitable operation during the year and has continued to be supported by it's director, a family based loan and banking arrangements formulated in July 2011.

The director believes profitable operations can be maintained into the foreseeable future, and it is on this basis that the accounts are prepared.

Accounting convention

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Turnover

Turnover represents net invoiced sales of goods, excluding value added tax.

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life or, if held under a finance lease, over the lease term, whichever is the shorter.

Improvements to property	- Over the Term of the Lease
Plant and machinery	- 7.5% on Reducing Balance
Motor vehicles	- 25% on Reducing Balance
Computer equipment	- 25% on Reducing Balance

Stocks

Stocks and work in progress are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items.

Cost includes all direct expenditure and an appropriate proportion of fixed and variable overheads.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Hire purchase and leasing commitments

Assets obtained under hire purchase contracts or finance leases are capitalised in the balance sheet. Those held under hire purchase contracts are depreciated over their estimated useful lives. Those held under finance leases are depreciated over their estimated useful lives or the lease term, whichever is the shorter.

The interest element of these obligations is charged to the profit and loss account over the relevant period. The capital element of the future payments is treated as a liability.

Rentals paid under operating leases are charged to the profit and loss account on a straight line basis over the period of the lease.
