Notes

(forming part of the accounts)

1 Accounting policies

Basis of preparation

The accounts have been prepared under the historical cost accounting rules in accordance with FRS 102 Section 1A – The Financial Reporting Standard applicable in the UK and Republic of Ireland and the Companies Act 2006.

Consolidation

The company, being the parent of a small group, is exempt by virtue of section 383 of the Companies Act 2006 from the requirement to prepare group accounts. These accounts present information about the company as an individual undertaking and not about its group.

Turnover

Turnover represents the amounts (excluding value added tax) derived from the provision of goods and services to customers.

Fixed assets and depreciation

Depreciation is provided to write off the cost less the estimated residual value of tangible fixed assets by equal annual instalments over their estimated useful economic lives as follows:

Freehold wharves, buildings and fixed plant	-	5-20 years
Motor vehicles	-	4 years
Computer equipment	-	4 years
Other assets	-	10 years

No depreciation is provided on freehold land.

Freehold investment properties

Investment properties are revalued annually and any surplus or deficit is dealt with through profit and loss. No depreciation is provided in respect of investment properties.

Deferred taxation

Full provision is made for deferred tax assets and liabilities arising from timing differences between the recognition of gains and losses in the accounts and their recognition for tax purposes.

Foreign currencies

Transactions in foreign currencies are recorded using the rate of exchange ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated using the rate of exchange ruling at the balance sheet date and the gains or losses on translation are included in the profit and loss account.

Notes (continued)

Leases

Where the company enters into a lease which entails taking substantially all the risks and rewards of ownership of an asset, the lease is treated as a 'finance lease'. The asset is recorded in the balance sheet as a tangible fixed asset and is depreciated over its estimated useful life or the term of the lease, whichever is shorter. Future instalments under such leases, net of finance charges, are included within creditors. Rentals payable are apportioned between the finance element, which is charged to the profit and loss account, and the capital element which reduces the outstanding obligation for future instalments.

All other leases are accounted for as 'operating leases' and the rentals charged to the profit and loss account on a straight line basis over the lives of the leases.

Rents receivable on freehold investment properties under the terms of the operating lease are included in the profit and loss account on a receivable basis.

Pension costs

The company makes payments to defined contribution schemes for eligible staff which are charged to the profit and loss account as they become due.

2 Staff numbers

The average number of persons (including directors) employed by the company during the year was 5 (2015: 5).
