STANWAY SCREENS LIMITED

NOTES TO THE ABBREVIATED ACCOUNTS for the year ended 30 November 2005

1 Accounting policies

1.1 Accounting convention

The financial statements are prepared under the historical cost convention and in accordance with the Financial Reporting Standards for Smaller Entities (effective June 2002).

1.2 Turnover

Turnover represents amounts receivable for goods and services net of VAT and trade discounts.

1.3 Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less depreciation. Depreciation is provided at rates calculated to write off the cost less estimated residual value of each asset over its expected useful life, as follows:

Freehold land and buildings	Nil
Tools, fixtures, fittings and equipment	10% of cost, 10 -20% of written down value
Motor vehicles	25% of written down value

1.4 Leasing and hire purchase commitments

Assets obtained under hire purchase contracts and finance leases are capitalised as tangible assets and depreciated over the shorter of the lease term and their useful lives. Obligations under such agreements are included in creditors net of the finance charge allocated to future periods. The finance element of the rental payment is charged to the profit and loss account so as to produce a constant periodic rate of charge on the net obligation outstanding in each period.

1.5 Investments

Current asset investments are stated at the lower of cost and net realisable value.

1.6 Pensions

The company operates two defined contribution pension scheme. Contributions are charged to the profit and loss account as they become payable in accordance with the rules of the scheme.

1.7 Deferred taxation

Deferred tax is provided in full in respect of taxation deferred by timing differences between the treatment of certain items for taxation and accounting purposes. The deferred tax balance has not been discounted.

1.8 Stock

Stock is valued at the lower of cost and net realisable value. Cost is represented by direct materials and labour together with attributable amounts of fixed and variable overheads incurred in bringing each product to its present location and condition. Net realisable value is estimated selling price less further costs to completion and disposal.
