TARIAN INVESTMENT CO LTD

Notes to the abbreviated accounts for the year ended 31 March 2012

1 Accounting policies

a) Basis of accounting

The financial statements are prepared on the historical cost basis of accounting and have been prepared in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

The company has taken advantage of the exemption, conferred by Financial Reporting Standard 1, from presenting a cash flow statement as it qualifies as a small company

b) Consolidation

The company and its subsidiary comprise a small group. The company has therefore taken advantage of the option provided by section 398 of the Companies Act 2006 not to prepare group accounts

c) Investment properties

Properties held as investments are included in the financial statements at their open market value at the balance sheet date and the aggregate surplus or deficit is transferred to the revaluation reserve. No depreciation is provided since the properties are revalued annually. This represents a departure from the provisions of the Companies Act 2006 and is required for the accounts to give a true and fair view. The amount of depreciation which might otherwise have been shown cannot be separately identified or quantified.

d) Deferred taxation

Deferred tax is provided in respect of the tax effect of all timing differences that have originated but not reversed at the balance sheet date.

A deferred tax asset is regarded as recoverable and therefore recognised only when, on the basis of all available evidence, it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax is measured on a nondiscounted basis, at the average tax rates that are expected to apply in the periods in which the timing differences are expected to reverse, based on tax rates and laws that have been enacted or substantively enacted by the balance sheet date.
