SOUTHBOURNE PROPERTY HOLDING COMPANY LIMITED

NOTES TO THE ABBREVIATED ACCOUNTS

YEAR ENDED 31st MARCH 2003

1. Accounting Policies

Basis of Accounting

The accounts have been prepared under the historical cost convention, modified to include the revaluation of certain fixed assets, and in accordance with the Financial Reporting Standard for Smaller Entities (effective June 2002).

Turnover

Turnover is the total amount of rents receivable due from tenants in the year.

Fixed Assets

All fixed assets are initially recorded at cost.

Investment Properties

In accordance with Statement of Standard Accounting Practice No 19, the company's properties held for long-term investment are included in the Balance Sheet at their open market values. The surpluses on revaluation of such properties are transferred to the investment property revaluation reserve. Depreciation is not provided in respect of freehold investment properties.

The directors consider that this policy is necessary in order that the accounts may give a true and fair view because current values and changes in current values are of prime importance rather than the calculation of systematic annual depreciation. Depreciation is only one of the many factors reflected in the valuation and the amount which might otherwise have been shown cannot be separately identified or quantified.

Deferred Taxation

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more, tax, with the following exception:

Provision is made for tax on gains arising from the revaluation (and similar fair value adjustments) of fixed assets, and gains on disposal of fixed assets that have been rolled over into replacement assets, only to the extent that, at the balance sheet date, there is a binding agreement to dispose of the assets concerned.
