Notes to the Abbreviated Accounts for the period ended 30 June 2014

1 Accounting Policies

Basis of measurement and preparation of accounts
The financial statements are prepared under the historical cost convention modified to include the revaluation of certain fixed assets and in accordance with the Financial Reporting Standard for Smaller Entities effective April 2008.

Turnover policy
Turnover represents the total invoice value, excluding value added tax, of sales made during the year.

Tangible assets depreciation policy
Depreciation is provided at rates calculated to write off the cost or valuation less residual value of each asset over its expected useful life, as follows:
Land and Buildings - No depreciation is provided in respect of freehold buildings as it is the company's policy to maintain these to a high standard, the costs of which are charged in the Profit and Loss Account. As a result the estimated remaining useful economic life exceeds fifty years and the residual value is such that the depreciation is immaterial.

Fixtures Fittings and Equipment - 10% reducing balance
Motor vehicles - 25% reducing balance.

Investment Properties - In accordance with the Financial Reporting Standard for Smaller entities, no depreciation is provided on freehold investment properties or leasehold investment properties where the unexpired lease term exceeds twenty years. This treatment is a departure from the requirements of the Companies Act 2006 concerning depreciation of fixed assets but in the opinion of the directors, is necessary for the accounts to give a true and fair view.

Valuation information and policy
Stock - is valued at the lower of cost and net realisable value.
