Notes to the Abbreviated Financial Statements

Year ended 30th June 2001

1. Accounting policies

(a) Basis of accounting

The financial statements have been prepared under the historical cost convention, and in accordance with the Financial Reporting Standard for Smaller Entities (effective March 2000).

(b) Turnover

The turnover shown in the profit and loss account represents amounts invoiced during the year, exclusive of Value Added Tax.

(c) Depreciation

Depreciation is calculated so as to write off the cost of an asset, less its estimated residual value, over the useful economic life of that asset as follows:

Plant & Machinery	- 15% reducing balance
Fixtures & Fittings	- 15% reducing balance
Motor Vehicles	- 25% reducing balance

(d) Stocks

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items.

(e) Work in progress

Work in progress is valued on the basis of direct costs plus attributable overheads based on normal level of activity.

(f) Hire purchase agreements

Assets held under hire purchase agreements are capitalised and disclosed under tangible fixed assets at their fair value. The capital element of the future payments is treated as a liability and the interest is charged to the Profit and Loss Account on a straight line basis.

(g) Deferred taxation

Provision is made, under the liability method, to take account of timing differences between the treatment of certain items for accounts purposes and their treatment for tax purposes. Tax deferred or accelerated is accounted for in respect of all material timing differences to the extent that it is considered that a net liability may arise.

(h) Cash flow statement

The directors have taken advantage of the exemption in Financial Reporting Standard No1 from including a cash flow statement in the financial statements on the grounds that the company is small.
