1 Accounting policies

The accounts have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective June 2002).

Turnover

Credit is taken for ground rents and maintenance fees on the basis of the amount receivable in the accounting period.

Investment property

No provision has been made for the depreciation of the freehold property reversionary interest in accordance with Statement of Standard Accounting Practice No. 19, although this is a departure from the requirements of the Companies Act 1985.

Deferred taxation

Full provision is made for deferred taxation resulting from timing differences between the recognition of gains and losses in the accounts and their recognition for tax purposes. Deferred taxation is calculated on an un-discounted basis at the tax rates which are expected to apply in the periods when the timing differences will reverse.

7 Property management expenses

By arrangement with the leaseholders, the obligations of the Company in respect of the property maintenance, cleaning, lighting, insurance, lift maintenance and gardening have been taken over by managing agents, who meet all the expenditure from annual charges levied on the lessees and provide an account to the lessees of their receipts and payments. In these circumstances, there are no payments to or from the company and the expenditure and recoverable amounts are not therefore shown in these accounts. The Company has been unsuccessful in recovering the management expenses that were due from the lessees historically. However the Company has negotiated a new management fee arrangement with the lessees which is collected by the managing agents on behalf of the Company.
