NOTES TO THE ABBREVIATED ACCOUNTS FOR THE YEAR ENDED 31 MARCH 2014

1. Accounting Policies

1.1 Basis of preparation of financial statements

The full financial statements, from which these abbreviated accounts have been extracted, have been prepared under the historical cost convention as modified by the revaluation of investment property and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

1.2 Going concern

At 31 March 2014 the company had net current liabilities of £703,465 as a result of balances due to directors being classified as payable on demand. Confirmation has been provided by the directors that repayment of director loan account balances will only be made as and when funds permit, and that £600,000 of the balances outstanding at 31 March 2014 will not become repayable in less than one year from the date of signing the accounts. The directors therefore consider it appropriate to prepare the accounts on a going concern basis.

1.3 Turnover

Turnover comprises revenue recognised by the company in respect of rental income receivable from tenants of the company's investment properties, exclusive of Value Added Tax and trade discounts.

1.4 Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost or valuation less depreciation. Depreciation is provided at rates calculated to write off the cost or valuation of fixed assets, less their estimated residual value, over their expected useful lives on the following bases:

1.5 Investments

Investments held as fixed assets are shown at cost less provision for impairment.

1.6 Investment properties

Investment properties are included in the balance sheet at their open market value in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008) and are not depreciated. This treatment is contrary to the Companies Act 2006 which states that fixed assets should be depreciated but is, in the opinion of the directors, necessary in order to give a true and fair view of the financial position of the company.
