The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

This report is made solely to the company's shareholders, as a body, in accordance with Sections 495 and 496 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's shareholders those matters we are required to state to them in an auditor's report and for no other purpose. SCOPE OF THE AUDIT OF THE FINANCIAL STATEMENTS

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of: whether the accounting policies are appropriate to the company's circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the directors; and the overall presentation of the financial statements. In addition, we read all the financial and non-financial information in the annual report to identify material inconsistencies with the audited financial statements and to identify any information that is apparently materially incorrect based on, or materially inconsistent with, the knowledge acquired by us in the course of performing the audit. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

NOTES TO THE FINANCIAL STATEMENTS

YEAR ENDED 31 JANUARY 2014

1. ACCOUNTING POLICIES

Basis of accounting

The financial statements have been prepared under the historical cost convention, and in accordance with applicable UK accounting standards.

The financial statements are prepared in accordance with applicable United Kingdom accounting standards. The particular accounting policies adopted are described below and have been applied consistently throughout the current and preceding financial year.

Going Concern

The company finances its operations through cash balances and intercompany balances due to fellow subsidiary companies. The company has no overdraft facilities. There are no formal repayment terms on the intercompany balances.

As at 31 January 2014, the company had cash balances of £239,908 (2013 £51,980).

The directors acknowledge that the current economic environment results in an increased level of uncertainty over the level of future activity and consequent demand for the company's products.

The directors have reviewed the trading prospects and cash flow of the company. Based on this review the directors have concluded that the going concern basis should be used in the preparation of the financial statements.

Cash flow statement

The directors have taken advantage of the exemption in Financial Reporting Standard No 1 (Revised 1996) from including a cash flow statement in the financial statements on the grounds that the company is small.

Turnover

Turnover represents the hire and sale of plant and equipment to the construction industry, net of trade discounts and VAT. Rental income is recognised on a straight line basis over the period of the lease, even if the payments are not received on this basis. All trading is carried out in the UK.

Tangible fixed assets

Tangible fixed assets are stated at cost, net of depreciation and any provision for impairment.

No depreciation is provided on freehold land. Freehold property is depreciated over 50 years.

Depreciation of plant, equipment and vehicles is calculated to write off their cost by equal annual instalments over their estimated useful lives, which are considered to be between 3 and 5 years.

Depreciation

Depreciation is calculated so as to write off the cost of an asset, less its estimated residual value, over the useful economic life of that asset as follows:

Freehold Property	-	50 years
Plant & Machinery	-	3-5 years
Fixtures & Fittings	-	3-5 years
Motor Vehicles	-	3-5 years
Equipment	-	3-5 years

NOTES TO THE FINANCIAL STATEMENTS

YEAR ENDED 31 JANUARY 2014

1. ACCOUNTING POLICIES *(continued)*

Stocks - including policy on stock provisions

Materials and plant held for resale are valued at the lower of cost and net realisable value. Provision is made for obsolete, slow moving, or defective items where appropriate.

Hire purchase agreements

Assets held under hire purchase agreements are capitalised and disclosed under tangible fixed assets at their fair value. The capital element of the future payments is treated as a liability and the interest is charged to the profit and loss account at a constant rate of charge on the balance of capital repayments outstanding.

Pension costs

The company operates a defined contribution pension scheme. The assets of the fund are held in a separate trustee administered fund. Contributions are charged to the profit and loss account on an accruals basis.

Taxation

Current tax, including UK corporation tax and foreign tax, is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred taxation is provided in full on timing differences which result in an obligation at the balance sheet date to pay more tax, or a right to pay less tax, at a future date, at rates expected to apply when they crystallise based on current tax rates and law. Timing differences arise from the inclusion of items of income and expenditure in taxation computations in periods different from those in which they are included in financial statements. Deferred tax assets are recognised to the extent that it is regarded as more likely than not that they will be recovered. Deferred tax assets and liabilities are not discounted.
