WELLCOM LONDON LIMITED

STRATEGIC REPORT

FOR THE YEAR ENDED 30 JUNE 2016

The directors present their strategic report for the year ended 30 June 2016.

We aim to present a balanced and comprehensive review of the development and performance of our business during the period and its position at the period end. Our review is consistent with the size and non-complex nature of our business and is written in the context of the risks and uncertainties we face.

Business Review

- The business made a Profit before tax for the year of £1,002,335 against a Loss of £85,336 for 2015. Sales for the year were £10,416,979 against £7,136,082 for 2015, producing a value add margin of £3,866,749 for 2016 (37.12%), and £2,597,485 for 2015 (36.40%) respectively.
- The business cash position remains positive.
- Future planned developments that will further improve the profitability of the business are anticipated early in year 2016 / 2017.

Principal Risks and Uncertainties

- Competitive pricing pressure within the sector and the economy generally is a key risk to the business as are potentially associated decisions by Clients to consolidate or change supply, or supply in-house. The company manages this risk by providing value added services, continually improving and extending service offerings, and by maintaining strong client relationships.

Year End Position

During the year to 30 June 2016, the company has recognised Profit of £789,967 (2015: Loss of £74,083). There are no immediate developments relevant at the year end.

WELLCOM LONDON LIMITED
DIRECTORS' REPORT
FOR THE YEAR ENDED 30 JUNE 2016

The directors present their report and financial statements for the year ended 30 June 2016.

PRINCIPAL ACTIVITY

The principal activity of the company was that of the provision of pre media services.

DIRECTORS

The following directors served during the year

Mr W W Sidwell
Mr C A Anzarut
Mr A S Lumsden

STATEMENT AS TO DISCLOSURE OF INFORMATION TO AUDITORS

In so far as the directors are aware:

- there is no relevant audit information of which the company's auditor is unaware, and
- the directors have taken all steps that they ought to have taken to make themselves aware of any relevant audit information and to establish that the auditor is aware of that information.

AUDITORS

Sayers Butterworth LLP are deemed to be re-appointed under section 487(2) of the Companies Act 2006.

The directors have prepared this report in accordance with the special provisions of Part 15 of the Companies Act 2006 relating to small companies.

Approved by the board on 17 August 2016 and signed on its behalf by

WAYNE SIDWELL
Director

WELLCOM LONDON LIMITED
STATEMENT OF DIRECTORS' RESPONSIBILITIES
FOR THE YEAR ENDED 30 JUNE 2016

The directors are responsible for preparing the Directors' Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with International Financial Reporting Standards (IFRSs) as adopted by the European Union and applicable law. Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the group and of the profit or loss of the group for that year.

In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable IFRSs as adopted by the European Union have been followed, subject to any material departures disclosed and explained in the financial statements;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

WELLCOM LONDON LIMITED

Independent auditor's report to the shareholders of Wellcom London Limited FOR THE YEAR ENDED 30 JUNE 2016

We have audited the financial statements of Wellcom London Limited for the year ended 30 June 2016 which comprise the Statement of Comprehensive Income, the Statement of Financial Position, the Statement of Cash Flows, the Statement of Changes in Equity and the notes to the financial statements. The financial reporting framework that has been applied in their preparation is applicable law and International Financial Reporting Standards (IFRSs) as adopted by the European Union.

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

RESPECTIVE RESPONSIBILITIES OF DIRECTORS AND AUDITORS

As explained more fully in the Directors' Responsibilities Statement set out on page 5 the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

SCOPE OF THE AUDIT

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of: whether the accounting policies are appropriate to the company's circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the directors; and the overall presentation of the financial statements. In addition, we read all the financial and non-financial information in the Directors' Report to identify material inconsistencies with the audited financial statements and to identify any information that is apparently materially incorrect based on, or materially inconsistent with, the knowledge acquired by us in the course of performing the audit. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

OPINION ON FINANCIAL STATEMENTS

In our opinion the financial statements:

- give a true and fair view of the state of the company's affairs as at 30 June 2016 and of its results for the year then ended;
- have been properly prepared in accordance with IFRSs as adopted by the European Union; and;
- have been prepared in accordance with the Companies Act 2006.

OPINION ON OTHER MATTERS PRESCRIBED BY THE COMPANIES ACT 2006

In our opinion the information given in the strategic report and Directors' Report for the financial year for which the financial statements are prepared is consistent with the financial statements.

WELLCOM LONDON LIMITED

Independent auditor's report to the shareholders of Wellcom London Limited (continued) FOR THE YEAR ENDED 30 JUNE 2016

MATTERS ON WHICH WE ARE REQUIRED TO REPORT BY EXCEPTION

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

WELLCOM LONDON LIMITED
NOTES TO THE FINANCIAL STATEMENTS
AS AT 30 JUNE 2016

1. AUTHORISATION OF FINANCIAL STATEMENTS

The company's financial statements for the year were authorised for issue on 17 August 2016 and the balance sheet signed on the board's behalf by Mr W Sidwell and Mr C A Anzarut. Wellcom London Limited is a limited company incorporated and domiciled in England & Wales.

2. ACCOUNTING POLICIES

Basis of preparation

The company's financial statements have been prepared in accordance with International Financial Reporting Standards (IFRSs) as adopted by the European Union and as applied in accordance with the provisions of the Companies Act 2006.

The financial report is presented in UK Sterling and all values are rounded to the nearest pound (£) unless otherwise stated.

(i) New and amended standards adopted by the company

None of the new standards and amendments to standards that are mandatory for the first time for the financial year beginning 1 July 2015 affected any of the amounts recognised in the current period or any prior period and are not likely to affect future periods.

(ii) Early adoption of standards

The company has not elected to apply any pronouncements before their operative date in the annual reporting period beginning 1 July 2015.

(iii) Historical cost convention

The financial report has been prepared on a historical cost basis unless otherwise stated.

Statement of compliance with IFRS

Wellcom London Limited is a Limited company incorporated and domiciled in England and Wales. The company was incorporated on 6 May 1970. The company's financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the ISAB and as adopted by the European Union.

Significant accounting judgements, estimates and assumptions

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts in the financial statements. Management continually evaluates its judgements and estimates in relation to assets, liabilities, contingent liabilities, revenue and expenses. Management bases its judgements and estimates on historical experience and on other various factors it believes to be reasonable under the circumstances, the result of which form the basis of the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions and conditions.

Management has identified the following critical accounting policies for which significant judgements, estimates and assumptions are made. Actual results may differ from these estimates under different assumptions and conditions and may materially affect financial results or the financial position reported in future periods. Further details of the nature of these assumptions and conditions can be found in the relevant notes to the financial statements.

WELLCOM LONDON LIMITED
NOTES TO THE FINANCIAL STATEMENTS (continued)
AS AT 30 JUNE 2016

2. ACCOUNTING POLICIES (continued)

(i) Significant accounting judgements

Recovery of deferred tax assets

Deferred tax assets are recognised for deductible temporary differences as management considers that it is probable that future taxable profits will be available to utilise those temporary differences.

Impairment of non-financial assets other than goodwill

The company assesses impairment of all assets at each reporting date by evaluating conditions specific to the company and to the particular asset that may lead to impairment. These include product performance, technology, economic and political environments and future product expectations. If an impairment trigger exists the recoverable amount of the asset is determined. Management does not consider that the triggers for impairment testing have been significant enough and as such these assets have not been tested for impairment in this financial period.

(ii) Significant accounting estimates and assumptions

Impairment of goodwill

The company determines whether goodwill is impaired at least on an annual basis. This requires an estimation of the recoverable amount of the cash-generating units, using a value in use discounted cash flow methodology, to which the goodwill is allocated.

Estimation of useful lives of assets

The estimation of the useful lives of assets has been based on historical experience. In addition, the condition of the assets is assessed at least once per year and considered against the remaining useful life. Adjustments to useful lives are made when considered necessary.

Changes in accounting policies and disclosures

New and amended standards and interpretations

The company applied, for the first time, certain standards that have come into effect since the previous financial statements. The effect of these changes and amendments are described below:

IFRS 14 Regulatory Deferral Accounts

IFRS 14 is an optional standard that allows an entity, whose activities are subject to rate-regulation, to continue applying most of its existing accounting policies for regulatory deferral account balances upon its first-time adoption of IFRS. Entities that adopt IFRS 14 must present the regulatory deferral accounts as separate line items on the statement of financial position and present movements in these account balances as separate line items in the statement of profit or loss and OCI. The standard requires disclosure of the nature of, and risks associated with, the entity's rate-regulation and the effects of that rate-regulation on its financial statements. IFRS 14 is effective for annual periods beginning on or after 1 January 2016. Since the company is an existing IFRS preparer and is not involved in any rate-regulated activities, this standard does not apply.

WELLCOM LONDON LIMITED
NOTES TO THE FINANCIAL STATEMENTS (continued)
AS AT 30 JUNE 2016

2. ACCOUNTING POLICIES (continued)

Amendments to IFRS 11 Joint Arrangements: Accounting for Acquisitions of Interests

The amendments to IFRS 11 require that a joint operator accounting for the acquisition of an interest in a joint operation, in which the activity of the joint operation constitutes a business, must apply the relevant IFRS 3 *Business Combinations* principles for business combination accounting. The amendments also clarify that a previously held interest in a joint operation is not remeasured on the acquisition of an additional interest in the same joint operation if joint control is retained. In addition, a scope exclusion has been added to IFRS 11 to specify that the amendments do not apply when the parties sharing joint control, including the reporting entity, are under common control of the same ultimate controlling party.

The amendments apply to both the acquisition of the initial interest in a joint operation and the acquisition of any additional interests in the same joint operation and are prospectively effective for annual periods beginning on or after 1 January 2016, with early adoption permitted. These amendments do not have any impact on the company as there has been no interest acquired in a joint operation during the year.

Amendments to IAS 16 and IAS 38: Clarification of Acceptable Methods of Depreciation and Amortisation

The amendments clarify the principle in IAS 16 *Property, Plant and Equipment* and IAS 38 *Intangible Assets* that revenue reflects a pattern of economic benefits that are generated from operating a business (of which the asset is a part) rather than the economic benefits that are consumed through use of the asset. As a result, a revenue-based method cannot be used to depreciate property, plant and equipment and may only be used in very limited circumstances to amortise intangible assets. The amendments are effective prospectively for annual periods beginning on or after 1 January 2016, with early adoption permitted. These amendments do not have any impact to the company given that the company has not used a revenue-based method to depreciate its non-current assets.

Amendments to IAS 16 and IAS 41 Agriculture: Bearer Plants

The amendments change the accounting requirements for biological assets that meet the definition of bearer plants. Under the amendments, biological assets that meet the definition of bearer plants will no longer be within the scope of IAS 41 *Agriculture*. Instead, IAS 16 will apply. After initial recognition, bearer plants will be measured under IAS 16 at accumulated cost (before maturity) and using either the cost model or revaluation model (after maturity). The amendments also require that produce that grows on bearer plants will remain in the scope of IAS 41 measured at fair value less costs to sell. For government grants related to bearer plants, IAS 20 *Accounting for Government Grants and Disclosure of Government Assistance* will apply. The amendments are retrospectively effective for annual periods beginning on or after 1 January 2016, with early adoption permitted. These amendments do not have any impact to the company as the company does not have any bearer plants.

WELLCOM LONDON LIMITED
NOTES TO THE FINANCIAL STATEMENTS (continued)
AS AT 30 JUNE 2016

2. ACCOUNTING POLICIES (continued)

Amendments to IAS 27: Equity Method in Separate Financial Statements

The amendments will allow entities to use the equity method to account for investments in subsidiaries, joint ventures and associates in their separate financial statements. Entities already applying IFRS and electing to change to the equity method in their separate financial statements will have to apply that change statements will be required to apply this method from the date of transition to IFRS. The amendments are effective for annual periods beginning on or after 1 January 2016, with early adoption permitted. These amendments do not have any impact on the company's financial statements for the year ended 30 June 2016.

Annual Improvements 2012-2014 Cycle

These improvements are effective for annual periods beginning on or after 1 January 2016. They include:

IFRS 7 Financial Instruments: Disclosures

Servicing contracts

The amendment clarifies that a servicing contract that includes a fee can constitute continuing involvement in a financial asset. An entity must assess the nature of the fee and the arrangement against the guidance for continuing involvement in IFRS 7 in order to assess whether the disclosures are required. The assessment of which servicing contracts constitute continuing involvement must be done retrospectively. However, the required disclosures would not need to be provided for any period beginning before the annual period in which the entity first applies the amendments.

IAS 19: Employee Benefits

The amendment clarifies that market depth of high quality corporate bonds is assessed based on the currency in which the obligation is denominated, rather than the country where the obligation is located. When there is no deep market for high quality corporate bonds in that currency, government bond rates must be used. This amendment must be applied prospectively.

These amendments do not have any impact on the company.

WELLCOM LONDON LIMITED
NOTES TO THE FINANCIAL STATEMENTS (continued)
AS AT 30 JUNE 2016

2. ACCOUNTING POLICIES (continued)

Amendments to IAS 1: Disclosure Initiative

The amendments to IAS 1 clarify, rather than significantly change, existing IAS 1 requirements. The amendments clarify:

- The materiality requirements in IAS 1
- That specific line items in the statement(s) of profit or loss and OCI and the statement of financial position may be disaggregated
- That entities have flexibility as to the order in which they present the notes to financial statements
- That the share of OCI of associates and joint ventures accounted for using the equity method must be presented in aggregate as a single line item, and classified between those items that will or will not be subsequently reclassified to profit or loss.

Furthermore, the amendments clarify the requirements that apply when additional subtotals are presented in the statement of financial position and the statement(s) of profit or loss and OCI. These amendments are effective for annual periods beginning on or after 1 January 2016, with early adoption permitted. These amendments do not have any impact on the company.

Amendments to IFRS 10 and IAS 28: Sale or Contribution of Assets between an Investor and its Associate or Joint Venture

The amendments address the conflict between IFRS 10 and IAS 28 in dealing with the loss of control of a subsidiary that is sold or contributed to an associate or joint venture. The amendments clarify that the gain or loss resulting from the sale or contribution of assets that constitute a business, as defined in IFRS 3, between an investor and its associate or joint venture, is recognised in full. Any gain or loss resulting from the sale or contribution of assets that do not constitute a business, however, is recognised only to the extent of unrelated investors' interests in the associate or joint venture. These amendments must be applied prospectively and are effective for annual periods beginning on or after 1 January 2016, with early adoption permitted. These amendments do not have any impact on the company.

WELLCOM LONDON LIMITED
NOTES TO THE FINANCIAL STATEMENTS (continued)
AS AT 30 JUNE 2016

2. ACCOUNTING POLICIES (continued)

Accounting standards issued but not yet effective

The standards and interpretations that are issued, but not yet effective, up to the year ended 30 June 2016 for the company's financial statements are disclosed below. The company intends to adopt these standards, if applicable, when they become effective.

IFRS 9 Financial Instruments

In July 2014, the IASB issued the final version of IFRS 9 Financial Instruments that replaces IAS 39 Financial Instruments: Recognition and Measurement and all previous versions of IFRS 9. IFRS 9 brings together all three aspects of the accounting for financial instruments project: classification and measurement, impairment and hedge accounting. IFRS 9 is effective for annual periods beginning on or after 1 January 2018, with early application permitted. Except for hedge accounting, retrospective application is required but providing comparative information is not compulsory. For hedge accounting, the requirements are generally applied prospectively, with some limited exceptions.

IFRS 15 Revenue from Contracts with Customers

IFRS 15 was issued in May 2014 and establishes a five-step model to account for revenue arising from contracts with customers. Under IFRS 15, revenue is recognised at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer.

The new revenue standard will supersede all current revenue recognition requirements under IFRS. Either a full retrospective application or a modified retrospective application is required for annual periods beginning on or after 1 January 2018, when the IASB finalises their amendments to defer the effective date of IFRS 15 by one year. Early adoption is permitted.

IFRS 16 Leases

IFRS 16 was issued in January 2016 and specifies how an IFRS reporter will recognise, measure, present and disclose leases. The standard provides a single lessee accounting model, requiring lessees to recognise assets and liabilities for all leases unless the lease term is 12 months or less or the underlying asset has a low value. Lessors continue to classify leases as operating or finance, with IFRS 16's approach to lessor accounting substantially unchanged from its predecessor, IAS 17. This is for annual reporting periods beginning on or after 1 January 2019.

WELLCOM LONDON LIMITED
NOTES TO THE FINANCIAL STATEMENTS (continued)
AS AT 30 JUNE 2016

2. ACCOUNTING POLICIES (continued)

Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured. All such revenue is reported net of discounts and value added and other sales taxes.

Revenue relating to services in progress but not yet completed at the year end is recognised to the extent that costs incurred are recoverable from the customer.

Income tax

Income tax expense represents the sum of the tax currently payable and deferred income tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in the income statement because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The company's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the balance sheet date.

Retirement benefit costs

Payments to defined contribution retirement benefit plans are charged as an expense as the cost accrues.

Goodwill

Goodwill represents the excess of the cost of an acquisition over the fair value of the company's share of the identifiable net assets of the acquired entity at the date of acquisition. Goodwill arising from acquisitions is included in intangible assets, tested annually for impairment and carried at cost less accumulated impairment losses.

WELLCOM LONDON LIMITED
NOTES TO THE FINANCIAL STATEMENTS (continued)
FOR THE YEAR ENDED 30 JUNE 2016

2. ACCOUNTING POLICIES (continued)

Property, plant and equipment

Items of property, plant and equipment are stated at cost of acquisition or production cost less accumulated depreciation and impairment losses.

Depreciation is charged so as to write off the cost or valuation of assets over their estimated useful lives, using the straight line method, on the following bases:

Short leasehold property	Over the life of the lease
Plant and equipment	20% - 33.33%
Motor vehicles	25%
Fixtures and fittings	20% - 25%

The carrying values of plant and equipment, leasehold improvements and equipment under finance lease are reviewed for impairment at each reporting date, with the recoverable amount being estimated when events or changes in circumstances indicate the carrying value may be impaired.

For assets that do not generate largely independent cash inflows, the recoverable amount is determined for the cash generating unit to which the asset belongs, unless the asset's value in use can be estimated to be close to its fair value.

An impairment exists when the carrying value of an asset or cash-generating unit exceeds its estimated recoverable amount.

The asset or cash-generating unit is then written down to its recoverable amount. An item of property, plant and equipment is derecognised upon disposal or when no further future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the assets) is included in profit or loss in the year the asset is derecognised.

Deferred tax

Deferred tax is provided in full, using the statement of financial position liability method, on temporary differences arising between the tax bases of assets and liabilities and the carrying amounts in the financial statements.

Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than as a business combination) or other assets and liabilities in a transaction that affects neither the tax profit nor the accounting profit.

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries, and interest in joint ventures, except where the company is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

WELLCOM LONDON LIMITED
NOTES TO THE FINANCIAL STATEMENTS (continued)
FOR THE YEAR ENDED 30 JUNE 2016

2. ACCOUNTING POLICIES (continued)

Deferred tax is charged or credited to the income statement, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity.

Deferred tax is determined using the tax rates that are expected to apply in the year when the asset is realised or the liability is settled.

The carrying amount of deferred tax assets is reviewed at each statement of financial position date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are offset when they relate to income taxed levied by the same taxation authority and the company intends to settle its current tax assets and liabilities on a net basis.

Financial instruments

Financial instruments are classified and accounted for, according to the substance of the contractual arrangement, as either financial assets, financial liabilities or equity instruments. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities.

Inventories

Inventories are valued at the lower of cost and net realisable value. Cost comprises direct materials, direct labour and an appropriate portion of variable and fixed overhead expenditure. Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

Trade and other receivables

Trade and other receivables are recognised by the company and carried at the original invoice amount less an allowance for any uncollectible or impaired amounts.

An estimate for doubtful debts is made when collection of the full amount is no longer probable. Bad debts are written off when they are identified as being bad.

Other receivables are recognised at fair value.

Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and in hand and short term deposits. Short term deposits are defined as deposits with an initial maturity of three months or less.

WELLCOM LONDON LIMITED
NOTES TO THE FINANCIAL STATEMENTS (continued)
FOR THE YEAR ENDED 30 JUNE 2016

2. ACCOUNTING POLICIES (continued)

Provisions

Provisions are recognised when the company has a present obligation that arises as a consequence of a past event, it is probable that an outflow of resources will be required to settle that obligation and the obligation can be reliably estimated. The provisions are measured as the estimated expenditure that will be required to settle such obligations as at the balance sheet date.

Discounting to present value is employed in the estimation process when the effect of the time value of money is material.

Trade and other payables

Trade and other payables are initially measured at fair value, and are subsequently measured at amortised cost, using the effective interest rate method.

Trade payables and other payables represent liabilities for goods and services provided to the company prior to the end of the financial year that are unpaid and arise when the company becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured and are usually paid within 30 days of recognition.

Operating lease commitments

Operating leases payments are recognised as an expense in the income statement on a straight-line basis over the lease term.

Finance leases

Assets held under finance leases are initially recognised at their fair value or, if lower, at amounts equal to the present value of the minimum lease payments, each determined at the inception of the lease. The corresponding liability to the lessor is included in the balance sheet as a finance lease obligation.

Lease payments are apportioned between finance charges, if applicable, and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are charges directly against income.

Finance leased assets are recognised on a straight-line basis over the estimated useful life of the asset.

Foreign currency translation

All foreign currency translations during the financial year are brought to account using the exchange rate in effect at the date of the transaction. Where foreign currency monetary items exist at reporting date, they are translated at the exchange rate existing at reporting date.

WELLCOM LONDON LIMITED
NOTES TO THE FINANCIAL STATEMENTS (continued)
FOR THE YEAR ENDED 30 JUNE 2016

2. ACCOUNTING POLICIES (continued)

Employee benefits

Provision is made for benefits accruing to employees in respect of wages and salaries, annual leave and long service leave when it is probable that settlement will be required and they are capable of being measured reliably.

Provisions made in respect of employee benefits expected to be settled within twelve months are measured at their nominal values using the remuneration rate expected to apply at the time of settlement.

3. OPERATING PROFIT

Operating profit is stated after charging/(crediting) the following:

	2016 £	2015 £
Loss on disposal of property, plant and equipment	-	-
Depreciation of property, plant and equipment	175,839	126,390
Net foreign currency differences	16,592	(729)

8. GOODWILL

During the year ended 30 June 2012, the company acquired the trade and assets of Mission Possible (Create) Limited. Goodwill of £600,000 arose on the transaction.

On 29 August 2015 the company acquired the trade assets of Space 66 Limited for full consideration of £300,000.

As at 30 June 2016 the company held goodwill of £900,000 (2015: £600,000). In the opinion of the directors, this was not impaired at 30 June 2016.

Impairment testing of goodwill

Goodwill is allocated to the company's cash-generating units (CGUs) according to operating segment.

During the financial period, the company assessed the recoverable amount of goodwill. The recoverable amount of each cash-generating unit is determined by value-in-use calculations. These calculations use cash flow projections based on financial budgets approved by management covering a five-year period. Cash flows beyond the five-year period are extrapolated using steady estimated growth rates stated below. The growth rate does not exceed the long-term average growth rate for the business in which the CGU operates. The growth rate for the UK in 2016 is 3% (2015: 3%) and the discount rate in 2016 is 9.4% (2015: 9.5%).

In completing value-in-use calculations management determined budgeted gross margins based on past performance and its expectations for the future. The weighted average growth rates used are consistent with forecasts included in industry reports. Management believes the projected growth rate to be prudent and justified based on the company's past and expected performance. The discount rates used reflect specific risks relating to the relevant segments.

WELLCOM LONDON LIMITED
NOTES TO THE FINANCIAL STATEMENTS (continued)
FOR THE YEAR ENDED 30 JUNE 2016

8. GOODWILL (continued)

Impact of possible changes in key assumptions

A reasonable change in key assumptions would not cause the CGU's carrying amounts to exceed their recoverable amount.

9. DEFERRED TAX

	<i>Statement of financial position</i>		<i>Income statement</i>

Deferred Tax charge		<u>-</u>	18,284	<u>-</u>
Net Deferred Tax	18,324	<u>40</u>		

10. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

Financial risk management

The company has exposure to credit, liquidity and market risks from its use of financial instruments.

This note presents information about the company's exposure to each of the above risks, its objectives, policies and processes for measuring and managing risk.

The Board of directors has overall responsibility for the establishment, development and monitoring risk management policies.

Risk management policies are established to identify and analyse the risks faced by the company, to set out appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the company's activities. The company, through training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

Credit risk

Credit risk is the risk of financial loss to the company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the company's receivables from customers and cash and cash equivalents held with financial institutions.

Trade and other receivables

The company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the company's customer base, including default risk of the industry and country in which the customers operate, has less of an influence on credit risk. Geographically there is no concentration of credit risk.

WELLCOM LONDON LIMITED
NOTES TO THE FINANCIAL STATEMENTS (continued)
FOR THE YEAR ENDED 30 JUNE 2016

10. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

The company has been transacting with the majority of its customers for a number of years, and losses have occurred infrequently. In monitoring customer credit risk, customers are grouped according to their credit characteristics, including whether they are an individual or legal entity, whether they are a wholesale, retail or end-user customer, geographic location, industry, ageing profile, maturity and existence of previous financial difficulties. The company does not require collateral in respect of trade and other receivables.

The company has established an allowance for impairment that represents an estimate of incurred losses in respect of trade and other receivables. The main components of this allowance are a specific loss component that relates to individually significant exposures. The collective loss allowance is determined based on historical data of payment statistics for similar financial assets.

Credit risk in relation to cash and cash equivalents is minimised by investing only with financial institutions that maintain a high credit rating.

Exposure to credit risk

The carrying amount of the company's financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

	Note	2016 £	2015 £
Cash and cash equivalents	15	367,682	631,795
Trade receivables	14	2,083,213	1,647,277
Receivables from related parties	14	488,858	130,178
Other receivables	14	27,522	89,848
		<u>2,967,275</u>	<u>2,499,096</u>

Liquidity risk

Liquidity risk is the risk that the company will not be able to meet its financial obligations as they fall due. The company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the company's reputation.

Typically the company ensures that it has sufficient cash on demand to meet expected operational expenses for a period of 60 days, including the servicing of financial obligations; this excludes the potential impact of extreme circumstances that cannot reasonably be predicted, such as natural disasters.

Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

WELLCOM LONDON LIMITED
NOTES TO THE FINANCIAL STATEMENTS (continued)
FOR THE YEAR ENDED 30 JUNE 2016

10. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (continued)

As the company's exposure to market risk is low, no derivative or financial liabilities were entered into during the year ended 30 June 2016 or the year ended 30 June 2015 with the purpose of managing market risks. The Board will continue monitoring the company's exposure to market risk and in the event that derivatives and/or financial liabilities are entered into, the Board will consider the costs and benefits of seeking to apply hedge accounting in order to manage volatility in profit and loss.

Currency risk

The company does not have material transactions between businesses in the UK and overseas, with the exception of inter group transactions, which would give rise to receivables and payables in foreign currency. The parent company considers itself a long-term holder of the assets of Wellcom London Ltd, and as such does not consider the inter group balances to represent short-term currency risk exposure.

Interest on borrowings is denominated in currencies that match the cash flows generated by the underlying operations of the company. The company held no borrowings as at 30 June 2016 and 30 June 2015.

As the company's exposure to currency risk on commercial trading is not significant it has not entered into any hedge transactions or taken alternative measures to minimise fluctuations in the respective currencies.

Fair values

Fair values versus carrying amounts

Carrying amounts of assets and liabilities approximate fair value. No financial assets and financial liabilities are readily traded on organised markets in standardised form nor are any of them recorded at fair value, therefore no fair value hierarchy disclosure is required.

Capital management

The company and the board policy is to maintain a strong capital base so as to maintain creditor and market confidence. Capital is defined as total business equity. The company has given responsibility of capital management to the board who have formulated capital management tools to service this requirement. Management of the capital structure is achieved by monitoring budgets and forecasts and actual cash flows.

	2016	2015
	£	£
Issued share capital	1,700	1,700
Reserves	300	300

Cash (and cash equivalents) and trade and other receivables (non-interest bearing) are not affected by fluctuations in interest or foreign exchange rates are therefore not considered to be sensitive to such movements.

Trade and other payables are not interest bearing borrowing and are therefore not sensitive to movements in interest rates.

12. RELATED PARTY TRANSACTIONS

Ultimate controlling party

The immediate and ultimate parent undertaking is Wellcom Group Limited, a company incorporated in Australia. Copies of the consolidated financial statements can be obtained from their website (www.wellcomworldwide.com).
