Slacks Millom Limited

**Abridged statement of financial position (continued)
as at 31 October 2018**

For the year ending 31 October 2018 the company was entitled to exemption from audit under section 477 of the Companies Act 2006 relating to small companies.

Directors responsibilities:

- The members have not required the company to obtain an audit of its financial accounts for the year in question in accordance with section 476;
- The directors acknowledge their responsibilities for complying with the requirements of the Act with respect to accounting records and the preparation of financial accounts.

These financial accounts have been prepared in accordance with the provisions applicable to companies subject to the small companies' regime and in accordance with FRS 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland'.

These financial accounts were approved by the board of directors and authorised for issue on 8 May 2019, and are signed on behalf of the board by:

Mr A E Slack
Director

Company registration number: 00993421

The notes on pages 3 to 7 form part of these financial accounts.

Slacks Millom Limited

Notes to the financial accounts Year ended 31 October 2018

1. Accounting policies

Statutory information

Slacks Millom Limited is a private company, limited by shares, domiciled in England and Wales, registration number 00993421. The registered office is Loco Shed, Borwick Rails, Millom, LA18 4JU.

These financial accounts have been prepared in compliance with the provisions of FRS 102, Section 1A, 'The Financial Reporting Standard applicable in the UK and Republic of Ireland and the Companies Act 2006'.

Basis of preparation

The financial statements have been prepared in accordance with the provisions of FRS 102 Section 1A small entities. There were no material departures from that standard.

The principal accounting policies adopted in the preparation of the financial statements are set out below and have remained unchanged from the previous year, and also have been consistently applied within the same financial statements.

Turnover

Turnover consists of the sales value, excluding VAT, of all work done in the period under contracts to supply goods and services to third parties. It includes the relevant proportion of contract values where work is partially performed in the period.

Taxation

The taxation expense represents the aggregate amount of current and deferred tax recognised in the reporting period. Tax is recognised in the statement of comprehensive income, except to the extent that it relates to items recognised in other comprehensive income or directly in capital and reserves. In this case, tax is recognised in other comprehensive income or directly in capital and reserves, respectively.

Current tax is recognised on taxable profit for the current and past periods. Current tax is measured at the amounts of tax expected to pay or recover using the tax rates and laws that have been enacted or substantively enacted at the reporting date.

Deferred tax is recognised in respect of all timing differences at the reporting date. Unrelieved tax losses and other deferred tax assets are recognised to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits. Deferred tax is measured using the tax rates and laws that have been enacted or substantively enacted by the reporting date that are expected to apply to the reversal of the timing difference.

Property, plant and equipment

Slacks Millom Limited

Notes to the financial accounts (continued)
Year ended 31 October 2018

Property, plant and equipment are included at cost less depreciation and impairment.

Depreciation

Depreciation is calculated so as to write off the cost or valuation of an asset, less its residual value, over the useful economic life of that asset as follows:

Freehold property	- 5%	straight line
Plant and machinery	- 25%	straight line
Motor vehicles	- 25%	straight line

If there is an indication that there has been a significant change in depreciation rate, useful life or residual value of tangible assets, the depreciation is revised prospectively to reflect the new estimates.

Impairment

A review for indicators of impairment is carried out at each reporting date, with the recoverable amount being estimated where such indicators exist. Where the carrying value exceeds the recoverable amount, the asset is impaired accordingly. Prior impairments are also reviewed for possible reversal at each reporting date.

Stocks

Stocks are measured at the lower of cost and estimated selling price less costs to complete and sell. Cost includes all costs of purchase, costs of conversion and other costs incurred in bringing the stocks to their present location and condition.

Notes to the financial accounts (continued)
Year ended 31 October 2018

Government grants

Government grants are recognised at the fair value of the asset received or receivable. Grants are not recognised until there is reasonable assurance that the company will comply with the conditions attaching to them and the grants will be received.

Government grants are recognised using the accrual model and the performance model.

Under the accrual model, government grants relating to revenue are recognised on a systematic basis over the periods in which the company recognises the related costs for which the grant is intended to compensate. Grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the entity with no future related costs are recognised in income in the period in which it becomes receivable.

Grants relating to assets are recognised in income on a systematic basis over the expected useful life of the asset. Where part of a grant relating to an asset is deferred, it is recognised as deferred income and not deducted from the carrying amount of the asset.

Under the performance model, where the grant does not impose specified future performance-related conditions on the recipient, it is recognised in income when the grant proceeds are received or receivable. Where the grant does impose specified future performance-related conditions on the recipient, it is recognised in income only when the performance-related conditions have been met. Where grants received are prior to satisfying the revenue recognition criteria, they are recognised as a liability.

Deferred taxation

Deferred taxation is provided on the liability method to take account of timing differences between the treatment of certain items for accounts purposes and their treatment for tax purposes.

Tax deferred or accelerated is accounted for in respect of all material timing differences.

Financial instruments

Basic financial instruments are recognised at amortised cost, except for fixed asset investments which are measured at fair value, with changes recognised in the fair value reserve.

Pension costs

The company operates a defined contribution scheme for the benefit of its directors and certain employees. Contributions payable are recognised in comprehensive income when due.

2. Employees

The average number of persons employed by the company during the year amounted to 16 (2017: 14).

Slacks Millom Limited
