**REPORT OF THE DIRECTORS
FOR THE YEAR ENDED 31 MARCH 2011**

The directors present their report with the financial statements of the company for the year ended 31 March 2011

PRINCIPAL ACTIVITY

The principal activity of the company in the year under review was that of the supply of fuel oil and petroleum products

REVIEW OF BUSINESS

As reported last year the Directors have been strategically planning their response some time. They are confident that the company's facilities can be profitably exploited to its full potential. The significant improvement in the company results this financial year is an accurate indication that the effort put into addressing the market place was well founded.

The company has facilities for aviation spirit supplies to Kent International Airport, which is located adjacent to our property. The 2000 tonne storage tanks have been upgraded to handle aviation spirit, and these have been licensed for the next 20 years. The supply potential of aviation fuel will be considerable when the aviation market improves following the upturn in air cargo volumes.

The company has increased its marpol waste oil collections by adding collections from Thames Ports, in addition to their existing volumes through Kent Ports, utilising the processing installation at the terminal, which has the only license facility for this process in the South East.

The company has been supplying the support vessels, including the large erection rigs, for the existing wind farm operation that has been constructed off the Kent Coast. In addition to developing the potential business for the next wind farm array that will be built over the next 5 year period making it the largest wind farm construction in Europe.

The company has over the last twelve months established a MCA accredited Tier 2 Emergency Oil Spill and Recovery Operation for the Port of London Authority covering the Thames Estuary and the Kent Ports in the English Channel. This was only made possible with the unique Waste Oil License the company holds.

The company continues to occupy the 5.245 acre site under holdover from a lease which terminated in July 2008 and which is not valued in these accounts. The freehold, which was valued in May 2007 in excess of £2 million by Sibley Pares Chartered Surveyors for Lloyds TSB Bank, is owned by the Directors family interests.
