**NOTES TO THE ABBREVIATED ACCOUNTS
FOR THE YEAR ENDED 31ST JANUARY 2015**

1. ACCOUNTING POLICIES

Basis of accounting

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Turnover

Turnover represents net invoiced sales of services and goods excluding Value Added Tax.

Commissions received are accounted for as other operating income.

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Furniture and office equipment	- 15% on reducing balance
Motor vehicles	- 15% on reducing balance

Stocks

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items.

Cost includes all direct expenditure and an appropriate proportion of fixed and variable overheads.

Deferred tax

Provision is made in full for all taxation deferred in respect of timing differences that have originated but not reversed by the balance sheet date.

Deferred tax assets are recognised to the extent that it is more likely than not that they will be recovered.

Foreign currencies

Assets and liabilities in foreign currencies are translated into sterling at the rates of exchange ruling at the balance sheet date. Year end balances are translated into sterling using the exchange rate prevailing at the balance sheet date. Transactions in foreign currencies are translated into sterling using a constant exchange rate throughout the year of \$1.5:£1 and €1.65:£1. The directors have applied the true and fair view override and are aware that this is a departure from UK GAAP.

Exchange differences are taken into account in arriving at the operating results.

Pension costs

The company operates a defined contribution pension scheme for the directors and the obligations of the company are charged to the profit and loss account in the year in which they become payable.

Leases

The lease on the premises occupied by the company is regarded as an operating lease and the total payments made under it are charged to the profit and loss account on a straight line basis over the lease term.
