Statement of Director's Responsibilities

Company law requires directors to prepare for each financial year financial statements which give a true and fair view of the state of affairs of the company and of the profit or loss for the period. In preparing these financial statements, the directors are required to :

Select suitable accounting policies

Make judgements and estimates that are reasonable and prudent

State whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements

Prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the company and to enable them to ensure that the financial statements comply with the Companies Act 1985. They have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the company and to prevent and detect fraud and other irregularities.

Notes to the Financial Statements

1 Accounting Policies

Accounting Convention

The financial statements have been prepared under the historical cost convention as modified by the revaluation of certain assets and in accordance with the Financial Reporting Standard for Smaller Entities.

Turnover

Turnover excludes Value Added Tax and derives from the company's principal activities.

Tangible Fixed assets

Depreciation is provided on fixed assets at the following annual rates in order to write off each asset over its estimated useful life from the date of acquisition.

Freehold Property	- No depreciation
Fixtures & Fittings	- 10% reducing balance
Motor Vehicles	- 20% reducing balance
Office Equipment	- 15% reducing balance

Depreciation is not provided on freehold properties as in the opinion of the directors this is not material given the estimated residual values based upon prices prevailing at the date of purchase.

In the case of the investment property this treatment is consistent with SSAP19 which requires investment properties to be carried at market value.

Stocks

Stocks are valued at the lower of cost and net realisable value after making due allowance for obsolete or slow moving items.

Leasing and Hire Purchase Commitments

Assets held under finance leases, which are those leases, which are those leases where substantially all the risks and rewards of ownership of asset have passed to the company, and hire purchase contracts are recorded in the balance sheet as fixed assets. Depreciation is provided on these assets over their estimated useful lives.

Future obligations under finance leases and hire purchase contracts are included in creditors, net of finance charges. Payments are apportioned between the finance element, which is charged to the profit and loss account as interest, and the capital element, which reduces the outstanding obligations.

Rentals paid under operating leases are charged to income on a straight-line basis over the lease term.

Deferred Taxation

Provision is made at current rates for taxation deferred in respect of all other material timing differences except to the extent that, in the opinion of the directors, there is reasonable probability that the liability will not arise in the foreseeable future.

Pensions

The company operates a defined contribution pension scheme. Contributions payable for the year are charged in the profit and loss account.

Cashflow Statement

Exemption has been taken from preparing a cash flow statement on the grounds that the company qualifies as a small company.
