1. ACCOUNTING POLICIES

Basis of accounting

The financial statements have been prepared under the historical cost convention, and in accordance with the Financial Reporting Standard for Smaller Entities (effective March 2000)

Changes in accounting policies

In preparing the financial statements for the current year, the company has adopted the following Financial Reporting Standards

-FRS 21 'Events after the Balance Sheet date (IAS 10)', and

-FRS 25 'Financial Instruments: Disclosure and Presentation (IAS 32)'

FRS 21 'Events after the Balance Sheet date (IAS 10)'

The adoption of FRS 21 has resulted in a change in accounting policy in respect of proposed equity dividends If the company declares dividends to the holders of equity instruments after the balance sheet date, the company does not recognise those dividends as a liability at the balance sheet date The aggregate amount of equity dividends proposed before approval of the financial statements, which have not been shown as liabilities at the balance sheet date, are disclosed in the notes to the financial statements Previously, proposed equity dividends were recorded as liabilities at the balance sheet date

This change in accounting policy has resulted in no prior year adjustment for the company

FRS 25 'Financial Instruments Disclosure and Presentation (IAS 32)' and FRS 26 'Financial Instruments Measurement (IAS 39)'

Cash flow statement

Company has taken advantage of the exemption from preparing a cash flow statement conferred by Financial Reporting Standard No1 on the grounds that it qualifies as a small company under the Companies Act 1985.

Deferred taxation

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more tax, with the following exceptions

Provision is made for tax on gains arising from the revaluation (and similar fair value adjustments) of fixed assets, and gains on disposal of fixed assets that have been rolled over into replacement assets, only to the extent that, at the balance sheet date, there is a binding agreement to dispose of the assets concerned However, no provision is made where, on the basis of all available evidence at the balance sheet date, it is more likely than not that the taxable gain will be rolled over into replacement assets and charged to tax only where the replacement assets are sold

Deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date
