NOTES TO THE ABBREVIATED ACCOUNTS FOR THE YEAR ENDED 30 JUNE 2016

1. Accounting policies

1.1 Basis of preparation of financial statements

The full financial statements, from which these abbreviated accounts have been extracted, have been prepared under the historical cost convention as modified by the revaluation of land and buildings and in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2015).

1.2 Turnover

Turnover comprises revenue recognised by the company in respect of services supplied during the year.

1.3 Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost or valuation less depreciation. Depreciation is not charged on freehold land. Depreciation on other tangible fixed assets is provided at rates calculated to write off the cost or valuation of those assets, less their estimated residual value, over their expected useful lives on the following bases:

Freehold property	-	2% straight line
Motor vehicles	-	25% reducing balance
Fixtures & fittings	-	25% reducing balance
Computer equipment	-	25% reducing balance

1.4 Revaluation of tangible fixed assets

As permitted by the transitional provisions of the Financial Reporting Standard for Smaller Entities (effective January 2015) the company has elected not to adopt a policy of revaluation of tangible fixed assets. The company will retain the book value of land and buildings, previously revalued at 30 June 2005 and will not update that valuation.

1.5 Stocks

Stocks are valued at the lower of cost and net realisable value.

1.6 Deferred taxation

Full provision is made for deferred tax assets and liabilities arising from all timing differences between the recognition of gains and losses in the financial statements and recognition in the tax computation.

Deferred tax is not provided on timing differences arising from the revaluation of fixed assets in the financial statements.

A net deferred tax asset is recognised only if it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax assets and liabilities are calculated at the tax rates expected to be effective at the time the timing differences are expected to reverse.

Deferred tax assets and liabilities are not discounted.
