Notes to the abbreviated financial statements for the year ended 31 March 2012

1. Accounting policies

1.1. Accounting convention

The accounts are prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

1.2. Turnover

Turnover represents the total invoice value, excluding value added tax, of fees due for the year

1.3. Tangible fixed assets and depreciation

Depreciation is provided at rates calculated to write off the cost less residual value of each asset over its expected useful life, as follows

Fixtures, fittings and equipment	- 25% Straight line
-------------------------------------	---------------------

1.4. Pensions

The company operates a defined contribution scheme. The pension costs charged in the financial statements represent the contribution payable by the company during the year.

1.5. Deferred taxation

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more, tax.

Deferred tax assets are recognised only to the extent that the director considers that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

1.6. Going concern

The accounts have been prepared on the assumption that the company is able to carry on business as a going concern, which the director considers appropriate having regard to the circumstances outlined in Note 5 to the accounts.

4. Transactions with director

Included within creditors is an amount of £3,155 (31 March 2011 - £3,072) owed to the director

5. Future trading and the current economic environment

The company has considerable financial resources. As a consequence, the director believes that the company is well placed to manage its business risks successfully despite the current uncertain economic outlook.

The director has a reasonable expectation that the company has adequate funds to continue in operational existence for a period of twelve months from the date of signing the financial statements. Thus he continues to adopt the going concern basis of accounting in preparing the financial statements.
