NOTES TO THE ABBREVIATED ACCOUNTS FOR THE YEAR ENDED 31 OCTOBER 2011

1. ACCOUNTING POLICIES

Accounting convention
The financial statements have been prepared under the historical cost convention as modified by the revaluation of certain assets and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Exemption from preparing a cash flow statement
Exemption has been taken from preparing a cash flow statement on the grounds that the company qualifies as a small company.

Turnover
Turnover represents rents receivable from investment properties.

Tangible fixed assets
Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Computer equipment - 33% on cost

Investment property
Investment property is shown at most recent valuation. Any aggregate surplus or deficit arising from changes in market value is transferred to a revaluation reserve.

This policy represents a departure from statutory accounting principles which require changes in value to be taken to the profit and loss account. The directors consider that this departure is necessary in order that the financial statements may give a true and fair view because changes in current values should only be recognised in the profit and loss account when realised.

Deferred tax
Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date. No discounting is applied to the deferred tax liabilities. Deferred tax assets are recognised to the extent that they are considered as recoverable.
