NOTES TO THE ACCOUNTS FOR THE YEAR ENDED 31ST DECEMBER 2004

1. ACCOUNTING POLICIES

The accounting policies set out below have been applied consistently by the Company in the preparation of its accounts.

(a) Basis of Accounting

The Financial Statements have been prepared in accordance with applicable Accounting Standards and under the historical cost convention. The Financial Statements have also been prepared on the going concern basis on the assumption that the Directors will, in line with their assurances given to so do, continue to financially support the Company. The Company has taken advantage of the exemption in Financial Reporting Standard No. 1 from producing a cash flow statement on the grounds that it is a small Company as defined by the Companies Act, 1985.

(b) Turnover

Turnover represents the total value, excluding Value Added Tax, of sales during the year.

(c) Depreciation

Depreciation has been provided using the following rates and bases to reduce by annual instalments the cost of the tangible Fixed Assets over their estimated useful lives:-

|                     |                         |
|---------------------|-------------------------|
| Motor Vehicles      | - 25% of net book value |
| Plant and Machinery | - 25% of net book value |

(d) Stock and Work in Progress

Stock and Work in Progress have been valued by the Directors at the lower of cost and net realisable value.

(e) Deferred Taxation

No deferred taxation has been provided as it is unlikely that a liability or asset will crystallize in the foreseeable future.

(f) Leases

Where the Company enters into a lease which entails taking substantially all the risks and rewards of ownership of an asset, the lease is treated as a 'finance lease'. The asset is recorded in the Balance Sheet as a tangible Fixed Asset and is depreciated over its estimated useful life. Future instalments under such leases, net of finance charges, are included within Creditors. Rentals payable are apportioned between the finance element, which is charged to the Profit and Loss Account, and the capital element which reduces the outstanding obligation for future instalments.

All other leases are accounted for as 'operating leases' and the rental charges are charged to the Profit and Loss Account on a straight line basis over the life of the lease.

(g) Pensions

The Company operates a defined contribution pension scheme for its Directors. The assets of the scheme are held separately from those of the Company in an independently administered fund. The pension charge represents the amounts payable by the Company to the fund in respect of the year.

2. TURNOVER

The turnover and profit before taxation is attributable to the principal activities of the Company.
