for the Year Ended 28 February 2011**

1. ACCOUNTING POLICIES

Principal Accounting Policies

The principal accounting policies adopted in the preparation of the Financial Statements are set out below and have remained unchanged from the previous year and also have been consistently applied within the same Financial Statements.

Basis of Preparation

The Financial Statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

The effect of events relating to the year ended 28th February 2011, which occurred before the date of approval of the Financial Statements by the Board of Directors, have been included in the statements to the extent required to show a true and fair view of the state of affairs at 28th February 2011 and of the results for the year ended on that date.

Turnover

Turnover represents net invoiced sales of goods, excluding value added tax.

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life or, if held under a finance lease, over the lease term, whichever is the shorter.

Freehold property	- not provided
Plant and machinery	- 15% on reducing balance
Fixtures and fittings	- 10% on reducing balance
Motor vehicles	- 25% on cost

Computer equipment	- 33.3% on cost
--------------------	-----------------

The Directors consider it inappropriate to provide depreciation on freehold land and buildings as it is their practice to maintain the properties in a continual state of sound repair such that their useful lives are so long and residual values so high that depreciation is felt to be insignificant

Stocks

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.
