Notes to the Abbreviated Financial Statements for the year ended 30 September 2001

1. Accounting Policies

1.1. Accounting convention

The accounts are prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective March 2000).

1.2. Turnover

Turnover represents the total invoice value, excluding value added tax, of sales made during the year.

1.3. Tangible fixed assets and depreciation

Depreciation is provided at rates calculated to write off the cost less residual value of each asset over its expected useful life, as follows:

Plant and equipment	-	25% reducing balance basis
Fixtures and fittings	-	15% reducing balance basis
Motor vehicles	-	25% reducing balance basis
Computer equipment	-	33.33% reducing balance basis

1.4. Stock

Stock is valued at the lower of cost and net realisable value.

1.5. Pensions

The pension costs charged in the financial statements represent the contribution payable by the company during the year.

1.6. Deferred taxation

Provision is made for deferred taxation using the full provision method to take account of timing differences between the incidence of income and expenditure for taxation and accounting purposes except to the extent that the directors consider that a liability to taxation is unlikely to materialise.

1.7. Foreign currencies

Foreign currency transactions are translated at a fixed exchange rate calculated on a periodic basis. Non monetary assets, monetary assets and liabilities are translated at the periodic rate, rather than the rate prevailing at the transaction or balance sheet date. This policy does not comply with the Financial Reporting Standard for Smaller Entities (effective March 2000), however the directors consider this departure does not materially affect the financial statements. The resulting exchange gains and losses are transacted through the profit and loss account.
