**NOTES TO THE ABBREVIATED ACCOUNTS
FOR THE YEAR ENDED 30 SEPTEMBER 2012**

I ACCOUNTING POLICIES

Accounting convention

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Preparation of consolidated financial statements

The financial statements contain information about Galan Investments Limited as an individual company and do not contain consolidated financial information as the parent of a group. The company has taken the option under Section 398 of the Companies Act 2006 not to prepare consolidated financial statements.

Investment property

Investment property is shown at most recent valuation. Any aggregate surplus or deficit arising from changes in market value is transferred to a revaluation reserve.

Investment property is shown at the open market value. The surplus or deficit arising from the annual revaluation is transferred to the investment revaluation reserve unless a deficit, or its reversal, on an individual investment property is expected to be permanent, in which case it is recognised in the profit and loss account for the year.

In accordance with Financial Reporting Standard for Smaller Entities (effective April 2008) no depreciation is provided in respect of freehold properties held as investments. This is a departure from the requirements of the Companies Act 2006 which requires all properties to be depreciated. Such properties are held for investment and not for consumption and the directors consider that to depreciate them would not give a true and fair view. Depreciation is only one of the many elements reflected in the annual valuation of properties and accordingly the amount of depreciation which might otherwise have been charged cannot be separately identified or quantified. The directors consider that this policy results in the financial statements giving a true and fair view.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Foreign currencies

Assets and liabilities in foreign currencies are translated into sterling at the rates of exchange ruling at the balance sheet date. Transactions in foreign currencies are translated into sterling at the rate of exchange ruling at the date of transaction. Exchange differences are taken into account in arriving at the operating result.

Investments

Investments held as fixed assets are stated at cost less provision for permanent diminution in value. Those held as current assets are stated at the lower of cost and net realisable value.

Dividends are brought to accounts in the profit and loss when received.
