Notes to the Abbreviated Accounts

For the year ending 31 December 2009

1 Accounting policies

Accounting convention

The financial statements have been prepared under the historical cost convention, as modified by the revaluation of certain assets and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Turnover

Turnover represents the amounts derived from the provision of goods and services falling within the company's ordinary activities, after deduction of trade discounts, value added tax and any other other taxes.

Deferred tax

Deferred tax arises as a result of including items of income and expenditure in taxation computations in period different from those in which they are included in the company's accounts. Deferred tax is provided in full on timing differences which result in an obligation to pay more (or less) tax at a future date, at the average tax rates that are expected to apply when the timing differences reverse, based on current tax rates and laws. Deferred tax is not provided on timing differences arising from the revaluation of fixed assets where there is no commitment to sell the asset. Deferred tax assets and liabilities are not discounted.

Depreciation

Depreciation has been provided at the following rates in order to write off the assets over their estimated useful lives.

Plant and machinery	25% on reducing balance
Fixtures and fittings	25% on reducing balance
Computer equipment	25% on reducing balance
