The director is satisfied that the company is entitled to exemption from the requirement to obtain an audit under section 477 of the Companies Act 2006.

The member has not required the company to obtain an audit in accordance with section 476 of the Act.

The director acknowledges his responsibilities for complying with the requirements of the Companies Act 2006 with respect to accounting records and the preparation of accounts.

The accounts have been prepared in accordance with the provisions in Part 15 of the Companies Act 2006 applicable to companies subject to the small companies regime.

A.M. Al-Hasawi

Director

MESSILA RESIDENTIAL LIMITED
Notes to the Accounts
for the year ended 31 March 2016

1 Accounting policies

(a) Basis of preparation

The accounts have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2015).

(b) Going concern

The company meets its day to day working capital requirements through internal funding from its parent undertaking.

The director has indicated that it is reasonable to rely on the continuation, into the foreseeable future, of financial support of its parent undertaking. On the basis of this information and the conduct of its financial affairs subsequent to the balance sheet date, the director considers it is appropriate to prepare the financial statements on the going concern basis.

Turnover

Turnover comprises of commission receivable and ancillary services of an estate agent, net of Value Added Tax.

Depreciation

Depreciation has been provided at the following rates in order to write off the assets over their estimated useful lives.

Plant and machinery	20% straight line
Motor vehicles	25% straight line
Leasehold property refurbishments	Over the period of the lease

Deferred taxation

Full provision is made for deferred taxation resulting from timing differences between the recognition of gains and losses in the accounts and their recognition for tax purposes. Deferred taxation is calculated on an un-discounted basis at the tax rates which are expected to apply in the periods when the timing differences will reverse.

Leasing and hire purchase commitments

Assets held under finance leases and hire purchase contracts, which are those where substantially all the risks and rewards of ownership of the asset have passed to the company, are capitalised in the balance sheet and depreciated over their useful lives. The corresponding lease or hire purchase obligation is treated in the balance sheet as a liability.

The interest element of the rental obligations is charged to the profit and loss account over the period of the lease and represents a constant proportion of the balance of capital repayments outstanding.

Rentals paid under operating leases are charged to income on a straight line basis over the lease term.

10 Going Concern

During the current year the company made profits of £298,589. As at the balance sheet date, the company has net liabilities of £3,227,311 which includes £3,610,687 due to the group undertakings.

The company has received undertakings from the group companies that they would not seek repayment of the funds until such time as the company has funds available for the purpose and the group companies would financially support the company as and when required.

Accordingly, the financial statements have been prepared on a going concern basis which assumes that the company will continue in operational existence for the foreseeable future. The validity of this assumption depends on the continued financial support by the group companies and procuring profitable operations.
