NOTES ON THE ACCOUNTS - 31 OCTOBER 2002

1 ACCOUNTING POLICIES

1.1 Basis of preparation of accounts

The accounts are prepared under the historical cost convention.

1.2 Tangible fixed assets

Tangible fixed assets are stated at cost less depreciation

The cost of tangible fixed assets is written off by annual instalments over their estimated useful lives as follows:

Fixtures and equipment	5 years
Motor vehicles	4 years
Workshop	10 years

1.3 Leasing and hire purchase contracts

Assets obtained under hire purchase contracts and finance leases are capitalised as tangible fixed assets. Assets acquired under finance leases are depreciated over the shorter of the lease term and their useful lives. Assets acquired under hire purchase contracts are depreciated over their useful lives. Finance leases are those where substantially all of the benefits and risks of ownership are assumed by the company. Obligations under such agreements are included in creditors net of the finance charge allocated to future periods. The finance element of the rental payment is charged to the profit and loss account so as to produce a constant periodic rate of charge on the net obligation outstanding in each period.

Rentals applicable to operating leases where substantially all of the benefits and risks of ownership remain with the lessor are charged to profit and loss account as incurred.

1.4 Stocks and work in progress

Stocks and work in progress are valued at the lower of cost and realisable value after making due allowance for obsolete and slow moving stocks. Cost includes all direct and other related costs.

1.5 Properties

Properties are valued at the lower of cost and net realisable value.

1.6 Deferred taxation

Provision is made for taxation deferred as a result of material timing differences between the incidence of income and expenditure for taxation and accounts purposes, using the liability method only to the extent that, in the opinion of the director, there is a reasonable probability that a liability or asset will crystallise in the future.

1.7 Pensions

The company operates a defined contribution pension scheme, and the pension charge represents the amounts payable by the company to the fund in respect of the year.
