NOTES TO THE ABBREVIATED ACCOUNTS FOR THE YEAR ENDED 31 MARCH 2011

1 Accounting policies

1.1 Accounting convention

The financial statements are prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

1.2 Turnover

Turnover represents amounts receivable for goods and services net of VAT and trade discounts. Income is recognised when a right to consideration under each contract has been obtained through performance and reflects the contract activity during the year with any profits, having regard to their stage of completion, being included within debtors and shown as amounts recoverable on contracts.

1.3 Tangible fixed assets and depreciation

Tangible fixed assets other than freehold land are stated at cost less depreciation. Depreciation is provided at rates calculated to write off the cost less estimated residual value of each asset over its expected useful life, as follows:

Land and buildings Freehold	Nil
Fixtures, fittings & equipment	25% per annum straight line
Motor vehicles	25% per annum on reducing balance

No depreciation has been provided on freehold property.

The directors consider that the freehold property is maintained in such a state of repair that its residual value is at least equal to its net book value. As a result the corresponding depreciation would not be material and therefore is not charged to the profit and loss account. The directors perform annual reviews to ensure that the carrying value is recoverable.

1.4 Leasing

Rentals payable under operating leases are charged against income on a straight line basis over the lease term.

1.5 Stock

Stock is valued at the lower of cost and net realisable value.

1.6 Pensions

The company operates a defined contribution scheme for the benefit of its employees. Contributions payable are charged to the profit and loss account in the year they are payable.

1.7 Taxation

The charge for taxation is based on the profit for the year and takes into account deferred taxation. Provision for deferred taxation, where material, is made under the full liability method at current rates of taxation.
