**NOTES TO THE ABBREVIATED ACCOUNTS
FOR THE YEAR ENDED 31ST JULY 2007**

1 ACCOUNTING POLICIES

Accounting convention

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2005)

Turnover

Revenue is recognised as earned when, and to the extent that, the firm obtains the right to consideration in exchange for its performance under those contracts

It is measured at the fair value of the right to consideration, which represents amounts chargeable to clients, including recoverable expenses and disbursements, but excluding Value Added Tax

For incomplete contracts, an assessment is made of the extent to which revenue has been earned. This assessment takes into account the nature of the assignment, its stage of completion and the relevant contract terms

Revenue in respect of contingent fee arrangements (over and above any minimum agreed fee) is recognised when the contingent event occurs and the recoverability of the fee is assured

Unbilled revenue is included in debtors, under 'amounts recoverable under contracts'

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life or, if held under a finance lease, over the lease term, whichever is the shorter

Equipment & fittings	- 25% reducing balance/lease term
Motor vehicles	- 25% on reducing balance

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date

Hire purchase and leasing commitments

Assets obtained under hire purchase contracts or finance leases are capitalised in the balance sheet. Those held under hire purchase contracts are depreciated over their estimated useful lives. Those held under finance leases are depreciated over their estimated useful lives or the lease term, whichever is the shorter

The interest element of these obligations is charged to the profit and loss account over the relevant period. The capital element of the future payments is treated as a liability

Rentals paid under operating leases are charged to the profit and loss account on a straight line basis over the period of the lease

Pensions

The company operates a defined contribution pension scheme. Contributions payable for the year are charged in the profit and loss account
