Notes to the Accounts
for the year ended 31 December 2025

1 Accounting policies

The principle accounting policies are summarised below. They have all been applied consistently throughout the year and the preceding period.

Basis of accounting

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2006).

Turnover

The company permanently ceased trading on 31 December 2009.

Goodwill

Goodwill arising on the acquisition of businesses, represents the excess of the fair value of consideration over the fair value of identifiable assets and liabilities acquired.

Goodwill has been fully written off

Tangible fixed assets

Tangible fixed assets have been fully disposed of.

Investments

Fixed asset investments have been fully disposed of.

Taxation

Current tax is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred taxation is accounted for at expected tax rates on all differences arising from the inclusion of items of income and expenditure in taxation computations in periods different from those in which they are included in the financial statements. A deferred tax asset is only recognised when it is more likely than not that the asset will be recoverable in the foreseeable future out of suitable taxable profits from which the underlying timing differences can be deducted.

Leases

Rentals under operating leases are charged on a straight-line basis over the lease term, even if the payments are not made on such a basis.
