The accounts are prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

1.2. Turnover

Turnover represents the aggregate of net brokerage, fees, commission and other related income received during the year. Brokerage is recognised at the date of inception of the risk subject to the placement having been completed to the client's satisfaction.

1.3. Tangible fixed assets and depreciation

Depreciation is provided at rates calculated to write off the cost less estimated residual value of each asset over its expected useful economic life, as follows:

Fixtures, fittings and equipment	- 33 1/3% straight line
-------------------------------------	-------------------------

1.4. Leasing

Rentals payable under operating leases are charged against income on a straight line basis over the lease term.

The company operates a defined contribution pension scheme. The assets of the scheme are held separately from those of the company in an independently administered fund. The pension cost charge represents contributions payable by the company to the fund during the year.

1.6. Deferred taxation

Provision is made in full for all taxation deferred in respect of timing differences that have originated but not reversed by the balance sheet date, except for timing differences arising on revaluations of fixed assets which are not intended to be sold, gains on disposals of fixed assets which will be rolled over into replacement assets and earnings of overseas subsidiaries that are not intended to be remitted to the UK. No provision is made for taxation on permanent differences. Deferred tax assets are recognised to the extent that it is more likely than not that they will be recovered.
