- For the year ending 30 September 2014 the company was entitled to exemption under section 477 of the Companies Act 2006 relating to small companies.
- The members have not required the company to obtain an audit in accordance with section 476 of the Companies Act 2006.
- The directors acknowledge their responsibilities for complying with the requirements of the Act with respect to accounting records and the preparation of accounts.
- These accounts have been prepared in accordance with the provisions applicable to companies subject to the small companies regime.

Approved by the Board on 24 June 2015

And signed on their behalf by:

H Bithrey, Director

Notes to the Abbreviated Accounts for the period ended 30 September 2014**1 Accounting Policies****Basis of measurement and preparation of accounts**

The accounts have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities effective April 2008.

Turnover policy

Turnover represents the total value of goods, and stated after trade discounts and net of value added tax, provided to customers during the year, plus the value of work, and stated after trade discounts and net of value added tax, performed during the year with respect to services.

Tangible assets depreciation policy**Tangible Fixed Assets**

Depreciation is provided at rates calculated to write off the cost less residual value of each asset over its expected useful life, as follows:

Land and Buildings - see investment properties note

Other accounting policies**Investment Properties**

In accordance with the Financial Reporting Standard for Smaller Entities, the company's property is held for long-term investment and is included in the Balance Sheet at its open market value.

Depreciation is not provided in respect of freehold investment property.

This policy represents a departure from the Companies Act 2006 which requires depreciation to be provided on all fixed assets. The directors consider that this policy of not providing depreciation is necessary in order that the Financial Statements may give a true and fair view because current values and change in current values are of prime importance rather than the calculation of systematic annual depreciation. Depreciation is only one of many factors reflected in the valuation and the amount which might have been shown cannot be identified or quantified.

Stock

Stock is valued at the lower of cost and net realisable value.

2 Tangible fixed assets

	£
