Notes to the Abbreviated Accounts for the period ended 30 September 2016**1 Accounting Policies****Basis of measurement and preparation of accounts**

The accounts are prepared under the historical cost convention and in accordance with applicable accounting standards, and in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2015).

Turnover policy

Turnover represents the total value of goods, and stated after trade discounts and net of value added tax, provided to customers during the year, plus the value of work, and stated after trade discounts and net of value added tax, performed during the year with respect to services.

Tangible assets depreciation policy**Tangible Fixed Assets**

Depreciation is provided at rates calculated to write off the cost less residual value of each asset over its expected useful life, as follows:

Land and Buildings - investment property see below

Tangible fixed assets are stated at cost less accumulated depreciation.

Other accounting policies**Investment Properties**

In accordance with the Financial Reporting Standard for Smaller Entities, the company's property is held for long-term investment and is included in the Balance Sheet at its open market value.

Depreciation is not provided in respect of freehold investment property.

This policy represents a departure from the Companies Act 2006 which requires depreciation to be provided on all fixed assets. The directors consider that this policy of not providing depreciation is necessary in order that the Financial Statements may give a true and fair view because current values and change in current values are of prime importance rather than the calculation of systematic annual depreciation. Depreciation is only one of many factors reflected in the valuation and the amount which might have been shown cannot be identified or quantified.

Stock

Stock is valued at the lower of cost and net realisable value.
