**NOTES TO THE ABBREVIATED ACCOUNTS
FOR THE YEAR ENDED 30 APRIL 2015**

1. ACCOUNTING POLICIES

1.1 Basis of preparation of financial statements

The full financial statements, from which these abbreviated accounts have been extracted, have been prepared under the historical cost convention as modified by the revaluation of Investment Property and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

1.2 Going concern

The financial statements have been drawn up on going concern basis. The company is dependent upon its bankers and parent company for continued financial support, which the directors are confident will continue for a period of not less than twelve months from the date of approval of the financial statements. On this basis, the directors consider it appropriate to prepare the financial statements on the going concern basis. If the going concern basis were not appropriate, adjustments would have to be made to reduce the value of the company's assets to their recoverable amount, to provide for any further liabilities which may arise and to reclassify fixed assets as current assets and long term liabilities as current liabilities.

1.3 Compliance with accounting standards

The financial statements are prepared in accordance with applicable United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice), which have been applied consistently (except as otherwise stated).

1.4 Turnover

Turnover represents rent receivable in the year net of VAT.

1.5 Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost or valuation less depreciation. Depreciation is provided at rates calculated to write off the cost or valuation of fixed assets, less their estimated residual value, over their expected useful lives on the following bases:

Investment properties are included in the balance sheet at their open market value. Depreciation is provided only on those investment properties which are leasehold and where the unexpired lease term is less than 20 years.

Although this accounting policy is in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008), it is a departure from the general requirement of the Companies Act 2006 for all tangible assets to be depreciated. In the opinion of the director compliance with the standard is necessary for the financial statements to give a true and fair view. Depreciation or amortisation is only one of many factors reflected in the annual valuation and the amount of this which might otherwise have been charged cannot be separately identified or quantified.

1.6 Investments

Investments held as fixed assets are shown at cost less provision for impairment.
