Notes

(forming part of the financial statements)

1 Accounting policies

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the company's financial statements.

Basis of preparation

The financial statements have been prepared in accordance with applicable accounting standards and under the historical cost accounting rules. The financial statements have been prepared in accordance with the special provisions of Part VII of the Companies Act 1985 relating to small companies and with the Financial Reporting Standard for Smaller Entities (effective March 1999).

Cash flow statement

Under Financial Reporting Standard 1 (Revised), the company is exempt from the requirement to prepare a cash flow statement on the grounds of its size.

Fixed assets and depreciation

Fixed assets comprise freehold land and no depreciation is provided.

Going concern

In recent years the Company has had net liabilities. The Company's balance sheet now has net assets of £90. The directors consider the going concern basis to be appropriate because the major creditor is the Executors of JJ Storer (deceased) who have given their written assurances that they will continue to provide support.

Taxation

The charge for taxation is based on the profit for the year and takes into account taxation deferred because of timing differences between the treatment of certain items for taxation and accounting purposes. Provision is made for deferred tax only to the extent that it is probable that an actual liability will crystallise.

Turnover

Turnover represents the amounts (excluding value added tax) derived from the provision of goods and services to customers.

2 Turnover

Turnover of £1,550 (2002: £1,550) represents the amounts receivable in respect of annual rents.
