1. Accounting policies

Basis of accounting

The financial statements have been prepared in accordance with the Financial Reporting Standard for Small Entities (effective January 2007) and under the historical cost accounting rules.

Cash flow statement

The company has taken advantage of the exemption from preparing a cash flow statement conferred by Financial Reporting Standard No.1 on the grounds that the company is a qualifying member of a group, headed by Maro Developments Limited, which prepares and publishes a consolidated cash flow statement.

Related Party Transactions

As permitted in Financial Reporting Standard No.8, no disclosure has been made of transactions with other group companies on the basis that the company is a wholly owned subsidiary and consolidated accounts are publically available.

Deferred tax is recognised in respect of all timing differences which have originated but not reversed at the balance sheet date. Timing differences are differences between taxable profits and the results as stated in the financial statements which arise from the inclusion of gains and losses in tax assessments in periods different from those in which they are recognised in the financial statements.

Deferred tax is measured at the average tax rates which are expected to apply in the periods in which the timing differences are expected to reverse, based on tax rates and laws which have been enacted or substantively enacted by the balance sheet date. Deferred tax is measured on a non-discounted basis.
