NOTES TO THE ABBREVIATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 1997

1. Accounting policies

The principal accounting policies adopted in the preparation of the financial statements are set out below and have remained unchanged from the previous year, and also have been consistently applied within the same financial statements.

Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention.

The effect of events in relation to the year ended 31 December 1997 which occurred before the date of approval of the financial statements by the Board of Directors, have been included in the statements to the extent required to show a true and fair view of the state of affairs at 31 December 1997 and of the results for the year ended on that date.

Depreciation

Depreciation has been computed to write off the cost of tangible fixed assets over their expected useful lives using the following rates:

Freehold buildings	- 1% per annum on cost
Fixtures and fittings	- 15% per annum on reducing balance

Stocks

Stocks have been valued at the lower of cost and net realisable value.

Taxation

The charge for taxation is based on the result for the accounting period as adjusted for disallowable items, and for timing differences arising from the recognition for tax purposes of certain items of income and expenditure in a different accounting period from that which they are recognised in the financial statements.

Provision is made for deferred tax only to the extent that it is probable that an actual liability will crystallise.

Capital instruments

Total shareholders' funds have been analysed between amounts attributable to equity interests and amounts attributable to non-equity interests. This analysis is shown in note 14 to the financial statements.

Finance costs attributable to non-equity interests represent arrears of cumulative preference share dividends for the financial year to which the cumulative preference shareholders would be entitled should their shares be redeemed by the company.
