NOTES TO THE ABBREVIATED ACCOUNTS FOR THE YEAR ENDED 31 DECEMBER 2001

1. ACCOUNTING POLICIES

The principal accounting policies adopted in the preparation of the financial statements are set out below and have remained unchanged from the previous year.

Turnover

The company's turnover represents the value of goods and services supplied to customers during the year.

Basis of Preparation of Financial Statements

The full financial statements from which these abbreviated accounts have been extracted, have been prepared in accordance with the Financial Reporting Standard for Small Entities (effective June 2002) under the historical cost convention.

The effect of events in relation to the year ended 31 December 2001 which occurred before the date of approval of the financial statements by the Board of Directors, have been included in the statements to the extent required to show a true and fair view of the state of affairs at 31 December 2001 and of the results for the year ended on that date.

Depreciation

Depreciation has been computed to write off the cost of tangible fixed assets over their expected useful lives using the following rates:

Freehold buildings	- 1% per annum of cost
Fixtures and fittings	- 15% per annum on reducing balance

Stocks

Stocks have been valued at the lower of cost and net realisable value.

Deferred Taxation

Deferred taxation is provided on the liability method to take account of timing differences between the treatment of certain items for accounts purposes and their treatment for tax purposes. Tax deferred or accelerated is accounted for in respect of all material timing differences to the extent that it is considered that a net liability may crystallise.

Capital instruments

Shareholders' funds comprise amounts attributable to equity interests and amounts attributable to non-equity interests.

Finance costs attributable to non-equity interests represent arrears of cumulative preference share dividends for the financial year to which the cumulative preference shareholders would be entitled should their shares be redeemed by the company, and are transferred to the preference shareholders' reserve.
