FOR THE YEAR ENDED 31 MARCH 2002

1 Accounting policies

a) Basis of financial statements

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Small Entities (effective June 2002).

b) Turnover

Turnover comprises the invoiced value of livestock sold to customers by the company, net of Value Added Tax

c) Depreciation

Provision for depreciation has been made at the following annual rates on the written down values on a basis consistent with the previous year :

Freehold land	0%
Buildings and improvements	15%
Plant and equipment	25%
Office equipment	25%
Motor vehicles	25%

d) Stocks

Stocks are stated at independent professional valuation, on the basis of the lower of cost and net realisable value.

e) Deferred taxation

The charge for taxation takes into account taxation deferred as a result of timing differences between the treatment of certain items for taxation and accounting purposes. In general, deferred taxation is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date. However, deferred tax assets are recognised only to the extent that the directors consider it more likely than not that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits. Deferred taxation is measured on a non-discounted basis at the average tax rates that would apply when the timing differences are expected to reverse, based on tax rates and laws that have been enacted by the balance sheet date.

5 Going Concern

The financial statements have been prepared on a going concern basis. In opinion of the directors this is appropriate because they have undertaken to continue to support the company. The directors' current accounts are interest free and unsecured, and the directors will not withdraw these funds in the forthcoming year. The company is also dependent on the continued support of the bank. The directors have undertaken to introduce further funds if the need arises.

The directors expect, therefore that the company will be able to meet its liabilities as they fall due.

If the company was unable to continue trading, adjustments would have to be made to reduce the value of the assets to their recoverable amount, to provide for any further liabilities which might arise, and to reclassify fixed assets and long term liabilities as current assets and liabilities.
