1.3 Goodwill

1.4 Tangible fixed assets and depreciation

Leasehold improvements	20% p a straight line basis
Plant and machinery	25% p a straight line basis
Motor vehicles	25% p a reducing balance basis

1.5 Leasing

Assets obtained under hire purchase contracts and finance leases are capitalised as tangible assets and depreciated over the shorter of the lease term and their useful lives. Obligations under such agreements are included in creditors net of the finance charge allocated to future periods. The finance element of the rental payment is charged to the profit and loss account so as to produce a constant periodic rate of charge on the net obligation outstanding in each period.

Rentals payable under operating leases are charged against income on a straight line basis over the lease term.

1.6 Stock and work in progress

Stock is valued at the lower of cost and net realisable value as follows

Raw materials - purchase cost on a first in, first out basis

Work in progress - direct material and labour cost plus attributable production overheads

Finished goods - purchase cost on a first in, first out basis

1.7 Pensions

The pension costs charged in the financial statements represent the contributions payable by the company during the year.

1.8 Deferred taxation

Deferred taxation is provided in full in respect of taxation deferred by timing differences between the treatment of certain items for taxation and accounting purposes. The deferred tax balance has not been discounted.

Deferred tax assets are recognised only to the extent that it is more likely than not that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.
