**AUDITORS' REPORT TO CANEI INTERNATIONAL LIMITED UNDER SECTION 247B
OF THE COMPANIES ACT 1985**

We have examined the abbreviated financial statements set out on pages 2 to 6, together with the financial statements of the company for the year ended 31 October 2000 prepared under Section 226 of the Companies Act 1985.

Respective responsibilities of directors and auditors

The directors are responsible for preparing the abbreviated financial statements in accordance with Section 246 of the Companies Act 1985. It is our responsibility to form an independent opinion as to whether the company is entitled to deliver abbreviated financial statements prepared in accordance with Sections 246(5) and (6) of the Act to the Registrar of Companies and whether the financial statements to be delivered are properly prepared in accordance with those provisions and to report our opinion to you.

Basis of opinion

We have carried out the procedures we consider necessary to confirm, by reference to the financial statements, that the company is entitled to deliver abbreviated financial statements and that the abbreviated financial statements to be delivered are properly prepared. The scope of our work for the purpose of this report did not include examining or dealing with events after the date of our report on the full financial statements.

Opinion

In our opinion the company is entitled to deliver abbreviated financial statements prepared in accordance with Sections 246(5) and (6) of the Companies Act 1985, and the abbreviated financial statements on pages 2 to 6 are properly prepared in accordance with those provisions.

1 Accounting policies

The financial statements have been prepared under the historical cost convention, and are in accordance with applicable accounting standards. The following principal accounting policies have been applied:

Turnover

Turnover represents sales to outside customers at invoiced amounts less value added tax.

Depreciation

Depreciation is provided to write off the cost or valuation, less estimated residual values, of all fixed assets, except freehold land, over their expected useful lives. It is calculated at the following rates:

Freehold buildings	- 2% - 4% straight-line
Plant and machinery	- 15% on reducing balance
Fixtures and fittings	- 10% on reducing balance
Motor vehicles	- 25% on reducing balance
Computer equipment	- 25% on reducing balance

In previous years it was company's policy not to charge depreciation on freehold buildings. However, following the introduction of Financial Reporting Standard 15, the directors have reviewed this policy and have determined that the company should charge depreciation on its freehold buildings in accordance with the rates shown above.

The effect of the change of policy has been to increase the company's depreciation charge for the year by £20,343.

Stocks

Stocks are valued at the lower of cost and net realisable value.

Deferred taxation

Provision is made for timing differences between the treatment of certain items for taxation and accounting purposes, to the extent that it is probable that a liability or asset will crystallise.

Leased assets

Where assets are financed by leasing agreements that give rights approximating to ownership ('finance leases'), the assets are treated as if they had been purchased outright. The amount capitalised is the present value of the minimum lease payments payable during the lease term. The corresponding leasing commitments are shown as amounts payable to the lessor. Depreciation on the relevant assets is charged to the profit and loss account.

Lease payments are analysed between capital and interest components so that the interest element of the payment is charged to the profit and loss account over the period of the lease and represents a constant proportion of the balance of capital repayments outstanding. The capital part reduces the amounts payable to the lessor. All other leases are treated as operating leases. Their annual rentals are charged to the profit and loss account on a straight-line basis over the term of the lease.

Pension costs

Contributions to the company's defined contribution pension scheme are charged to the profit and loss account in the year in which they become payable.
