(b) Turnover

Turnover comprises the invoiced value of goods and services supplied by the company, net of value added tax and trade discounts.

(c) Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost or valuation less depreciation. Depreciation is provided at rates calculated to write off the cost or valuation of fixed assets, less their estimated residual value, over their expected useful lives on the following bases:

Motor Vehicles	25 % reducing balance
Fixtures & fittings	20 % reducing balance
Freehold buildings	2 % straight line

Freehold land is not depreciated.

(d) Finance and operating leases

Assets acquired under finance leases or hire purchase are treated as tangible fixed assets and depreciation is provided accordingly. The value of future rentals is shown as a liability and the interest element of rental obligations is charged to the profit and loss account over the period of the lease on a straight line basis.

Operating lease rentals are charged in the profit and loss account on a straight line basis over the lease term.

(e) Stocks and work in progress

Stocks and work in progress are stated at the lower of cost and net realisable value. Cost includes all direct costs incurred and attributable production overheads.

(f) Deferred taxation

Provision is made for deferred tax using the liability method to the extent that it is probable that a liability will crystallise.

(g) Pensions

The company is a member of the group's defined contribution pension scheme providing benefits additional to those from the state. The pension charge in the profit and loss account represents the amounts payable by the company to the fund in respect of the year.
