SEH (ASPHALT) LIMITED
NOTES TO THE ABBREVIATED ACCOUNTS
YEAR ENDED 31 DECEMBER 2005

1 ACCOUNTING POLICIES

(a) Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2005).

Under Financial Reporting Standard 1, the company is exempt from the requirement to prepare a cash flow statement on the grounds of the ultimate parent company including the company in its own published consolidated financial statements.

(b) Revenue

Invoices for short term contracts are raised when work is completed and turnover is recognised at this stage.

Turnover on long term contracts is stated at cost appropriate to their stage of completion plus attributable profits, less amounts recognised in the previous period. The amount of profit attributable to the stage of completion of a long term contract is recognised when the outcome of the contract can be foreseen with reasonable certainty. Provision is made for any losses which are foreseen.

Applications for payment on long term contracts are raised when phases of work are completed and recognised as turnover. Invoices are raised on receipt of a sub contractors payment certificate and credited to turnover and the original posting of the application reversed. Provisions are made for work that is in dispute and turnover is adjusted to reflect this.

Retentions on contracts are recognised when invoices are raised. Provisions are made for work that is in dispute and turnover is reduced to reflect this.

Turnover in respect of all work is stated net of value added tax and trade discounts.

(c) Property, plant and equipment

Tangible fixed assets are stated at cost less depreciation. Depreciation is provided at rates calculated to write off the cost of fixed assets, less their estimated residual value, over their expected useful lives on the following bases:

Freehold buildings	2 % straight line
Plant & equipment	25 % reducing balance
Fixtures & fittings	20 % reducing balance
Motor vehicles	25 % reducing balance

Freehold land is not depreciated.

(d) Finance leases and hire purchase

Assets acquired under finance leases or hire purchase are treated as tangible fixed assets and depreciation is provided accordingly. The present value of future rentals is shown as a liability and the interest element of rental obligations is charged to the profit and loss account over the period of the lease in proportion to the capital balance outstanding.

(e) Stocks and work in progress

Amounts recoverable on contracts are included in debtors and represent turnover recognised in excess of payments on account. Amounts included within work in progress represent costs incurred on contracts in their initial stages at the year end for which no application for payment has been made.

Stocks and work in progress are valued at the lower of cost and net realisable value.

(f) Deferred taxation

Deferred tax is recognised without discounting in respect of all timing differences between the treatment of certain items for taxation and accounting purposes which have arisen but not reversed by the balance sheet date.
