SEH (ASPHALT) LIMITED

NOTES TO THE ABBREVIATED ACCOUNTS FOR THE YEAR ENDED 31 DECEMBER 2008

1. ACCOUNTING POLICIES

1.1 Basis of preparation of financial statements

The full financial statements, from which these abbreviated accounts have been extracted, have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2007).

1.2 Turnover

Invoices for short term contracts are raised when work is completed and turnover is recognised at this stage.

Turnover on long term contracts is stated at cost appropriate to their stage of completion plus attributable profits, less amounts recognised in the previous period. The amount of profit attributable to the stage of completion of a long term contract is recognised when the outcome of the contract can be foreseen with reasonable certainty. Provision is made for any losses which are foreseen. Applications for payment on long term contracts are raised when phases of work are completed and recognised as turnover. Invoices are raised on receipt of a sub contractors payment certificate and credited to turnover and the original posting of the application reversed. Provisions are made for work that is in dispute and turnover is adjusted to reflect this.

Retentions on contracts are recognised when invoices are raised. Provisions are made for work that is in dispute and turnover is reduced to reflect this.

Turnover in respect of all work is stated net of value added tax and trade discounts.

1.3 Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less depreciation. Depreciation is provided at rates calculated to write off the cost of fixed assets, less their estimated residual value, over their expected useful lives on the following bases:

Freehold buildings	-	2%	straight line
Plant & equipment	-	25%	reducing balance
Motor vehicles	-	25%	reducing balance
Fixtures & fittings	-	20%	reducing balance

Freehold land is not depreciated.

1.4 Stocks and work in progress

Amounts recoverable on contracts are included in debtors and represent turnover recognised in excess of payments on account. Amounts included within work in progress represent costs incurred on contracts in their initial stages at the year end for which no application for payment has been made.

Stocks and work in progress are valued at the lower of cost and net realisable value.

1. ACCOUNTING POLICIES (continued)

1.5 Deferred taxation

Full provision is made for deferred tax assets and liabilities arising from all timing differences between the recognition of gains and losses in the financial statements and recognition in the tax computation.

A net deferred tax asset is recognised only if it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax assets and liabilities are calculated at the tax rates expected to be effective at the time the timing differences are expected to reverse.

Deferred tax assets and liabilities are not discounted.

1.6 Pensions

The company is a member of the group's defined contribution pension scheme providing benefits additional to those from the State. The pension charge in the profit and loss account represents the amounts payable by the company to the fund in respect of the year.
