1. Accounting Policies

Basis of Accounting

The financial statements have been prepared under the historical cost convention, and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

Consolidation

In the opinion of the directors, the company and its subsidiary undertakings comprise a small group. The company has therefore taken advantage of the exemption provided by Section 398 of the Companies Act 2006 not to prepare group accounts.

Turnover

Turnover is the total amount of rents receivable by the company.

Fixed Assets

All fixed assets are initially recorded at cost.

Depreciation

No depreciation is provided on leasehold land and buildings as it is the company's policy to maintain its property in good condition by a programme of repair and refurbishment. This has the effect of extending the physical and economic life of the property and thereby rendering any charge for depreciation immaterial. In the opinion of the directors this accounting policy ensures that the Financial Statements present a true and fair view.

Investments

Investments are included at cost.

Deferred Taxation

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Financial Instruments

Financial instruments are classified and accounted for, according to the substance of the contractual arrangement, as either financial assets, financial liabilities or equity instruments. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities.
