Notes to the Abbreviated Accounts

for the year ended 30th September 2014

1. ACCOUNTING POLICIES

Accounting convention

The financial statements have been prepared under the historical cost convention as modified by the revaluation of certain assets and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Turnover

Turnover represents net invoiced sales of goods, excluding value added tax.

Tangible fixed assets

Depreciation is calculated to write down the cost or valuation of all fixed assets on a straight line basis over the expected useful lives:

The rates generally applicable are:

Fixtures, fittings and hire equipment	5 years
Office equipment	10 years
Motor vehicles	4-9 years

Stocks

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Leases and hire purchase contracts

Assets acquired under finance leases and hire purchase contracts are treated as fixed assets. The amount capitalised is the present value of the minimum lease payments payable during the lease term. Depreciation is charged to the profit and loss account in accordance with the normal depreciation policy over the shorter of the lease term and the useful life of the assets.

The corresponding lease commitments are shown as liabilities. The interest element of rental obligation is charged to the profit and loss account over the period of the lease on a straight line basis.

Rentals payable under operating leases are charged to the profit and loss account over the period on a straight line basis.
