NOTES TO THE ABBREVIATED ACCOUNTS

FOR THE YEAR ENDED 30TH JUNE 2000

1 Accounting policies

Basis of accounting

The accounts have been prepared under the historical cost convention and in accordance with applicable accounting standards.

The company has taken advantage of the exemptions in Financial Reporting Standard No. 1 from the requirement to produce a cash flow statement on the grounds that it is a small company.

Turnover

Turnover comprises the value of sales excluding value added tax and trade discounts.

Tangible fixed assets and depreciation

Depreciation is calculated to write down the cost or valuation less estimated residual value of all tangible fixed assets other than freehold land over their expected useful lives. The rates and periods generally applicable are:

Leasehold land and buildings	10% straight line
Plant and machinery	10% reducing balance basis
Trucks and cars	25% reducing balance basis
Fixtures and fittings	10% reducing balance basis
Computer equipment	33% straight line

Stocks

Stocks are stated at the lower of cost and net realisable value.

Hire purchase and leased assets

Assets held under finance leases and hire purchase contracts are capitalised in the balance sheet at their fair value and depreciated over their expected useful lives. The interest element of leasing payments represents a constant proportion of the capital balance outstanding and is charged to the profit and loss account over the period of the lease.

All other leases are regarded as operating leases and the payments made under them are charged to the profit and loss account on a straight line basis over the lease term.
