## **Report of the directors for the year ended 30 June 2011**

The directors present their report together with the audited financial statements for the year ended 30 June 2011

### **Results and dividends**

The profit and loss account is set out on page 6 and shows the loss for the year

An interim dividend of £Nil per share (2010 - £Nil) was paid during the year. The directors have not proposed a final dividend for the year (2010 - £Nil)

### **Principal activities, trading review and future developments**

The Company is a wholly owned subsidiary of Artisan (UK) plc. The principal activity of the Company in the year under review was that of a commercial property development company. The Company designs and develops attractive, modern, purpose built offices and light industrial space on its business park sites concentrated in East Anglia and Hertfordshire. There were no significant changes in the Company's principal activities in the year under review. The directors are not aware, at the date of this report, of any likely major changes in the Company's activities in the next year. Subsequent to the year end the Company was successful in securing a pre-let on a 30,000 sq ft office building on its business park in Peterborough. Construction of the property has commenced and completion is expected in the summer of 2012. The intention is to dispose of the property to provide further working capital for the Group.

As shown in the Company's profit and loss account on page 6, the Company's turnover for the year is £525,195 (2010 - £1,472,214), a decrease of 64% compared to the previous year. Market conditions have been very challenging and we have seen fewer sales of stock units than in the prior year. The low level of sales, combined with an impairment charge of £130,836 (2010 - £nil) required to reduce the carrying value of land and work in progress to net realisable value, resulted in a loss before tax of £1,092,860 (2010 - £975,399) for the year.

The balance sheet on page 7 of the financial statements shows the Company's financial position at the end of the year. Stocks have reduced by £586,951 to £9,051,253 as the result of the sale of finished units and the impairment charge made in the year. Group funding net of cash balances has increased by approximately £511,000 over the year reflecting the loss incurred. As a result of accumulated losses the Company has net liabilities at the year end of £1,744,381. The year ended with freehold land holdings amounting to circa 15,340 square metres (2010 - 15,340 square metres). All of this land has planning position, most of it detailed. In addition there are stock units totalling 2,870 square metres (2010 3,180 square metres).

### **Principal risks and uncertainties**

Whilst the Company has no bank borrowings, the Group is funded by significant levels of debt for which the Company provides cross guarantees to the Group's bank in favour of Artisan (UK) plc and its group company members for all monies owing. The Group is reliant on the continued provision of debt facilities which are provided for fixed periods of time. It is particularly relevant to note that, in the current economic climate, the Group is dependent upon the continued willingness and ability of the Group's bank to provide debt funding to the Group and the availability of new equity for Artisan (UK) plc to support the requirements of continuing debt facilities. The value of the Group's security for its borrowings, principally stocks, work in progress and finished units, is affected by the market and the opinions of the valuers reporting to our bank, and this can affect the amount of debt funding available to the Group and the level of working capital available. It can be expected that funders will want to reduce loan to cost and loan to value ratios and this also could reduce the level of funding available to the Group. Further information is set out in note 1 to the financial statements on page 8 regarding the availability of future facilities.

# **Artisan (UK) Developments Limited**

## **Report of the directors for the year ended 30 June 2011 (*continued*)**

### **Principal risks and uncertainties (*continued*)**

The Company's operations are clearly affected by the economic outlook and the actions and anticipated actions of the Monetary Policy Committee of the Bank of England, not least because the purchase of a property is normally a significant commitment by our purchaser. This risk is mitigated by having a number of business parks in different locations and with a mixture of offices and industrial units of varying sizes. Also, the Company's business model is weighted towards achieving forward sales as this has the advantage that we are able to build units to meet our customers' exact requirements in terms of size and specification whilst at the same time limiting our exposure to unsold stock. However, speculative development remains essential to secure new business.

The Company is largely funded by loans from Artisan (UK) plc which bear interest at commercial rates of interest under group treasury arrangements. The Group, and hence the Company, is subject to interest rate risk as the Group's borrowings are at floating rates of interest. The Group board have considered and will continue to consider whether any form of hedging is appropriate in relation to this risk.

The ability to secure land for development is key to the Company's ongoing success and expansion. Senior management time is devoted to identifying and evaluating potential sites, supplemented by close relationships with agents, and a rigorous process for considering and approving land purchases.

The planning process is uncertain. Where possible land acquisition terms are linked to the grant of planning permission. However, the timing of planning permission can become elongated and this can affect the delivery of intended sales within any given accounting year.

Health and safety is of paramount importance and a high standard of health and safety management is promoted at all levels in the Company. This is achieved through training programmes and health and safety rules that are backed up by a process of external auditing by suitably qualified consultants.

### **Environment**

The Company recognises the importance of its environmental responsibilities and aims to comply with all relevant environmental legislation. In particular, it aims to ensure that its designs meet the latest building regulations and the requirements of its customers.

### **Employees and health and safety at work**

Details of the number of employees and related costs can be found in note 3 on page 10.

A high standard of health and safety management is promoted at all levels within the Company. The Company maintains training programmes, health and safety rules, monitoring and auditing procedures in order to promote a high level of awareness and commitment.

### **Directors**

The directors of the Company during the year were

## Report of the directors for the year ended 30 June 2011 (*continued*)

### Directors' responsibilities

The directors are responsible for preparing the annual report and the financial statements in accordance with the Companies Act 2006 and for being satisfied that the financial statements give a true and fair view. The directors are also responsible for preparing the financial statements in accordance with United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

Company law requires the directors to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period. In preparing these financial statements, the directors are required to

- select suitable accounting policies and then apply them consistently,
- make judgments and estimates that are reasonable and prudent,
- state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements, and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The directors are responsible for keeping adequate accounting records that show and explain the Company's transactions, disclose with reasonable accuracy at any time the financial position of the Company, and enable them to ensure that the financial statements comply with the Companies Act 2006.

They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

### Indemnification of directors

Qualifying third party indemnity provisions (as defined in Section 234 of the Companies Act 2006) are in force for directors who held office during the year.

### Auditors

All of the current directors have taken all the steps that they ought to have taken to make themselves aware of any information needed by the Company's auditors for the purposes of their audit and to establish that the auditors are aware of that information. The directors are not aware of any relevant audit information of which the auditors are unaware.

BDO LLP have expressed their willingness to continue in office and a resolution to re-appoint them will be proposed at the annual general meeting.

## **Independent auditors' report**

### **TO THE MEMBERS OF ARTISAN (UK) DEVELOPMENTS LIMITED**

We have audited the financial statements of Artisan (UK) Developments Limited for the year ended 30 June 2011 which comprise the profit and loss account, the balance sheet and the related notes. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

#### **Respective responsibilities of directors and auditors**

As explained more fully in the statement of directors' responsibilities, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's (APB's) Ethical Standards for Auditors.

#### **Scope of the audit of the financial statements**

A description of the scope of an audit of financial statements is provided on the APB's website at [www.frc.org.uk/apb/scope/private.cfm](http://www.frc.org.uk/apb/scope/private.cfm).

#### **Opinion on financial statements**

In our opinion the financial statements

- give a true and fair view of the state of the Company's affairs as at 30 June 2011 and of its loss for the year then ended,
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice, and
- have been prepared in accordance with the requirements of the Companies Act 2006.

#### **Emphasis of matter – going concern**

In forming our opinion on the financial statements, which is not modified, we have considered the adequacy of the disclosures made in note 1 concerning the Company's ability to continue as a going concern.

The external lenders of the parent company, Artisan (UK) plc, hold a fixed and floating charge over the Company's assets and note 16 to these financial statements sets out the amount of borrowings guaranteed by the Company at the year end. The Group's loan facility of £25m, of which £16.7m had been drawn as at 30 June 2011, expired on 1 July 2011. The Group's lender has granted further extensions which will expire on 31 March 2012. The Directors of Artisan (UK) plc are in the process of renegotiating the banking facilities to ensure that suitable facilities remain in place after 31 March 2012. Whilst the Group expects to be able to agree revised loan facilities on acceptable terms, a significant uncertainty exists given the absence of any legally binding facility agreement between the Group and their lender.

These conditions indicate the existence of a material uncertainty which may cast significant doubt about the ability of the Company to be able to continue as a going concern. The financial statements do not include the adjustments that would result if the Company was unable to continue as a going concern.

## Artisan (UK) Developments Limited

### Independent auditors' report (*continued*)

---

#### Opinion on other matters prescribed by the Companies Act 2006

In our opinion the information given in the Directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements

#### Matters on which we are required to report by exception

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us, or
- the financial statements are not in agreement with the accounting records and returns, or
- certain disclosures of Directors' remuneration specified by law are not made, or
- we have not received all the information and explanations we require for our audit

# Artisan (UK) Developments Limited

## Notes forming part of the financial statements for the year ended 30 June 2011

### 1 Accounting policies

The financial statements have been prepared under the historical cost convention and are in accordance with applicable accounting standards. The following principal accounting policies have been applied:

#### *Basis of preparation*

The Directors have prepared the financial statements of the Company on the going concern basis. This assumes that the Company will continue to be able to meet its liabilities when they fall due for the foreseeable future.

The external lenders of the company's parent company, Artisan (UK) plc, hold a fixed and floating charge over the Company's assets and note 16 to these financial statements sets out the amount of borrowings guaranteed by the Company at the year end. The Group's loan facility of £25m, of which £16.7m had been drawn as at 30 June 2011, expired on 1 July 2011. The Group's lender has granted further extensions which will expire on 31 March 2012.

The Directors of Artisan (UK) plc are in the process of renegotiating the banking facilities to ensure that suitable facilities remain in place after 31 March 2012. Negotiations have been ongoing for some time and those negotiations are now at an advanced stage. As part of those negotiations, updated valuations in respect of the Group's stock and work in progress and properties have been prepared and final pricing of the facility will be dependent on the assessment of the outcome of those valuations. Our lender remains supportive of the Group and has provided a temporary waiver of a potential covenant breach together with an extension to the facility referred to above, in order to give sufficient time to complete an agreement of working capital requirements compared with a desire to reduce loan to value ratios and conclude negotiations and documentation of the new facility. The new bank facilities are likely to require that new equity be raised by the Group as a condition of granting the facilities. Our lender remains supportive of the Group and the Directors are confident that a successful conclusion to the negotiations can be reached. However, if appropriate terms cannot be agreed the Group would need to secure alternative facilities elsewhere. Because of uncertainties in the banking market, the lessening in the loan to value multiples available and anticipated increased borrowing costs, there is no certainty that acceptable alternative facilities would be readily available.

Given the above factors the Directors recognise that, without a binding agreement to extend the Group's facilities on acceptable terms, a material uncertainty exists that may cast significant doubt over the Company's ability to continue as a going concern and therefore the possibility that the fixed and floating charge could be called upon by the lenders. The financial statements do not include the adjustments that would be necessary if the Company was unable to continue as a going concern. Such adjustments would include presenting assets at their recoverable amounts which would be likely to result in further provisions to the current carrying amounts in the financial statements.

The Directors however consider it appropriate to prepare the Company's financial statements on the going concern basis given their belief that sufficient funding will be available for a period of 12 months from the date of approval of these financial statements.

#### *Cash flow statement*

The Company has taken advantage of the exemption not to prepare a cashflow statement on the basis that a consolidated cashflow statement is published in the parent company's consolidated financial statements.

#### *Turnover*

Turnover represents the value of work done and properties sold, excluding VAT. Profit is recognised on long term work in progress contracts if the final outcome can be assessed with reasonable certainty, by including in the profit and loss account turnover and related costs as contract activity progresses. Turnover is calculated as that proportion of total contract value which costs to date bear to total expected costs for that contract. Turnover arises solely in the UK. In respect of sales of property, turnover and profit are recognised upon legal completion of the legal transfer of title to the customer.

# Artisan (UK) Developments Limited

## Notes forming part of the financial statements for the year ended 30 June 2011 (*continued*)

### 1 Accounting policies (*continued*)

#### *Depreciation*

Depreciation is provided to write off the cost or valuation, less estimated residual values, of all fixed assets, except freehold land, evenly over their expected useful lives. It is calculated at the following rates:

|                                            |   |             |
|--------------------------------------------|---|-------------|
| Plant and machinery                        | - | 33% on cost |
| Fixtures and fittings and office equipment | - | 25% on cost |

#### *Stocks and work in progress*

Stocks and work in progress are valued at the lower of cost including relevant overheads and net realisable value. Work in progress includes materials, labour and an appropriate proportion of relevant overhead costs incurred on incomplete contracts and developments at the year end. Profit is recognised on long term contracts as stated above. Net realisable value is the amount that the company expects to realise from the sale of stock in the ordinary course of business, after allowing for the estimated costs of completion and the estimated costs necessary to make the sale. It is assumed that sites will be completed and sold in line with the company's intended development plans. In the event land or partly completed sites were sold without completing the development the amounts realised would be lower and may be below the carrying value in these accounts.

#### *Deferred taxation*

Deferred tax balances are recognised in respect of all timing differences that have originated but not reversed by the balance sheet date except that:

- deferred tax is not recognised on timing differences arising on revalued properties unless the Company has entered into a binding sale agreement and is not proposing to take advantage of rollover relief, and
- the recognition of deferred tax assets is limited to the extent that the Company anticipates to make sufficient taxable profits in the future to absorb the reversal of the underlying timing differences.

Deferred tax balances are not discounted.

#### *Leased assets*

Where assets are financed by leasing agreements that give rights approximating to ownership ('finance leases'), the assets are treated as if they had been purchased outright. The amount capitalised is the present value of the minimum lease payments payable during the lease term. The corresponding leasing commitments are shown as amounts payable to the lessor. Depreciation on the relevant assets is charged to the profit and loss account.

Lease payments are analysed between capital and interest components so that the interest element of the payment is charged to the profit and loss account over the period of the lease and represents a constant proportion of the balance of capital repayments outstanding. The capital part reduces the amounts payable to the lessor.

All other leases are treated as operating leases. Their annual rentals are charged to the profit and loss account on a straight-line basis over the term of the lease.

#### *Pensions*

The Company operates a defined contribution pension scheme. Contributions payable for the year are charged in the profit and loss account. The cost for the year is shown in note 3 to the accounts.

#### *Dividends*

Equity dividends are recognised when they become legally payable. Final equity dividends are recognised when approved by the shareholders at an annual general meeting.

## **9 Stocks**

|                  | <b>2011<br/>£</b> | <b>2010<br/>£</b> |
|------------------|-------------------|-------------------|
| Work in progress | <b>9,182,089</b>  | 9,638,204         |
|                  | <hr/>             | <hr/>             |

The Directors performed a net realisable value review of stock held at 30 June 2011. The review compared the estimated net realisable value of each of the development sites with its balance sheet carrying-value. Where the estimated net realisable value of an individual site was less than its carrying-value an impairment charge has been made. The impairment review resulted in an exceptional impairment charge of £130,836 (see note 4).

The key judgement in estimating the net realisable value of the sites was the estimation of likely sales prices and estimated costs to complete. Sales prices were estimated on a site-by-site basis based on local market conditions and considered the current prices being achieved on each site for each product type. Although the impairment of stock was based on the current prices being achieved or anticipated prices in the difficult conditions within the commercial property market, if the commercial property market were to deteriorate or improve beyond management expectations in the future then further adjustments to the carrying-value of stock may be required.

£1,669,720 (2010: £nil) of stock is valued at net realisable value rather than at historical cost.
