1 Principal accounting policies

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the Company's financial statements

Basis of accounting

The accounts have been prepared under the historical cost convention and in accordance with the Companies Act 2006 and applicable accounting standards in the United Kingdom

Parent undertaking

Group accounts are not prepared because at 31 March 2011 the Company was a member of a small group of companies

Cash flow statement

Under Financial Reporting Standard No 1 the Company is exempt from the requirement to prepare a cash flow statement on the grounds of its size

Going concern

The Company's business activities are set out in the Directors' report

The Company's ultimate controlling party is C J Walsh who controls a number of companies involved in venture capital sector. The overall position of the companies controlled by C J Walsh includes considerable financial resources

Given the current economic conditions, the Directors have considered the extent to which these matters create uncertainty, particularly over the Company's future prospects and the availability of finance in the foreseeable future. The Directors are confident that should additional funding be required, that they would be able to source this, if necessary, from within the group of companies controlled by C J Walsh

After making enquiries, the Directors have a reasonable expectation that the Company has adequate resources to continue in operational existence for the foreseeable future. Accordingly, they continue to adopt the going concern basis in preparing the annual report and accounts.

The current tax charge is lower than the standard rate of corporation tax in the UK of 28%. The differences are explained below

Factors affecting the tax charge for the current period

A annual phased reduction in the main rate of UK corporation tax from 28% to 24% was initially announced in the emergency budget in 2010. Following the 2011 budget statement, the main rate of UK corporation tax was reduced from 28% directly to 26% with effect from 1 April 2011 and to 25% with effect from 1 April 2012. Thereafter, the main rate of UK corporation tax will continue to reduce by 1% per annum to 23% by 2014. It is expected that this graduated fall in the main corporation tax rate will result in a reduction of the Company's future tax charge.
