Harrison & Miller Consultants Ltd
NOTES TO THE ABBREVIATED ACCOUNTS
FOR THE YEAR ENDED 31ST AUGUST 2002

1 Accounting Policies

Basis of Accounting

These accounts have been prepared under the historical cost convention and on the assumption that all the activities of the company are continuing.

The company has taken advantage of the exemption in Financial Reporting Standard No 1 from the requirement to produce a cash flow statement on the grounds that it is a small company.

Turnover

Turnover represents the value of work completed during the year stated exclusive of value added tax and trade discounts, and is attributable to the one principal activity of the company.

Fixed Assets

Fixed assets are stated at cost or valuation and are depreciated at the following rates intended to write off the cost less residual value of the assets over their useful economic lives.

Equipment	25%	reducing balance basis
Motor Vehicles	25%	reducing balance basis

Deferred Taxation

Deferred taxation arises where there is a material timing difference for the taxation treatment of an item and its treatment for accounting purposes e.g. accelerated capital allowances. Where it is unlikely that any future liability will arise due to, for example, continued investment in fixed assets, no provision is made in the accounts.

Pension Contributions

Pension contributions represent payments to money purchase schemes on behalf of directors. The assets of the scheme are separate to those of the company.
