CROSSFIELD CONSULTING LIMITED

NOTES TO THE ABBREVIATED ACCOUNTS

FOR THE YEAR ENDED 28TH FEBRUARY 2007

1, ACCOUNTING POLICIES

1.1 Accounting Convention

The financial statements are prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2005)

1.2 Turnover

Turnover represents the total invoice value, excluding value added tax, of sales made during the year

1.3 Tangible Fixed Assets and Depreciation

Depreciation is provided at rates calculated to write off the cost less residual value of each asset over its expected useful life, as follows -

Plant and equipment	50% reducing balance
Fixtures and Fittings	50% reducing balance

1 4 Stock and Work in Progress

Work in progress is valued at the lower of cost and net realisable value

1.5 Pensions

The pension costs charged in the financial statements represent the contribution payable by the Company during the year

1 6 Deferred Taxation

The charge for taxation takes into account taxation deferred as a result of timing differences between the treatment of certain items for taxation and accounting purposes. In general, deferred taxation is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date. However, deferred tax assets are recognised only to the extent that the Directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted. In accordance with FRS19, deferred tax is not recognised on revaluation gains. Deferred tax is measured on a non-discounted basis at the tax rates that are expected to apply in the periods in which the timing differences will reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.
